

# EXOS-525 PISTOL COMPENSATOR FOR SIG SAUER® P365/365XL - FAXON FIREARMS EXOS-525 PISTOL COMPENSATOR FO SIG SAUER P365/365XL BLACK

[Handgun Parts](#) > [Barrel Parts](#) > [Muzzle Devices](#) > [Compensators](#)

Faxon Firearms Pistol Compensators have been tested and confirmed compatible with SIG® P365 & P365 XL Pistols Constructed of 6061 aluminum with a black anodized finish, Faxon Pistol Compensators feature a uniquely angled front port single chamber design, enabling the compensator to improve consistency while reducing muzzle climb and recoil. The angled ports allow gas to deflect upwards as opposed to only deflecting sideways, reducing up and down muzzle movement and improving reliability. Barrel protrusion is designed to fit flush with the slide and has been optimized for Faxon branded barrels. For all other barrels, the barrel should protrude .600" or less for a flush fit. Each compensator comes complete with thread locker, two 6-32 set screws, and a 1/16 Allen wrench. SPECS Length: 1.125" Width: .900" Height: 1.236" Weight: .05lbs Thread: 1/2x28 Caliber: 9mm \*Compensators can affect the timing of your pistol and may require adjustments in lubrication, ammunition, and other areas.

# EXOS525 Pistol Compensator Safety Instruction Guide

## Introduction

Thank you for choosing the EXOS525 Pistol Compensator for your SIG Sauer P365/365XL. This guide provides essential safety instructions to ensure the proper use and handling of this product. Please read this guide carefully before installation and usage.

## General Safety Guidelines

- Ensure the product is suitable for your specific firearm model.
- Always handle firearms and accessories with care and respect.
- Keep the compensator out of reach of children and unauthorized users.
- Regularly inspect the compensator for signs of wear or damage.
- Follow all local laws and regulations regarding firearm modifications and accessories.
- Report any unsafe products or incidents to local authorities.

## Specific Safety Precautions for Use

- **Potential Hazards:**

- Improper installation may lead to firearm malfunction.
- Use of incompatible barrels can affect performance and safety.

- **Avoiding Hazards:**

- Ensure the barrel protrudes .600" or less for a proper fit.
- Use only recommended ammunition types to prevent excess pressure.
- Regularly check the tightness of the compensator and screws.
- Do not alter the compensator or use it in ways not intended by the manufacturer.

- **AudienceSpecific Warnings:**

- This product is not intended for individuals under the age of 18.
- Ensure that users possess the necessary knowledge and experience with firearms.

## Instructions for Installation and Usage

- **Installation:**

1. Ensure your firearm is unloaded and pointed in a safe direction.
2. Remove any existing muzzle device from the barrel.
3. Clean the barrel threads to remove any debris.
4. Apply thread locker to the compensator threads.
5. Screw the compensator onto the barrel until it is snug.
6. Use the included 632 set screws to secure the compensator in place.
7. Tighten the set screws using the provided 1/16 Allen wrench.
8. Ensure the compensator fits flush with the slide.

- **Usage:**

- Always verify that the compensator is securely attached before use.

- Practice safe handling and shooting techniques.
- Regularly clean the compensator to maintain performance.

## **Disposal Instructions**

- Dispose of the compensator in accordance with local regulations for metal products.
- Do not dispose of in regular household waste.

## **Contact Information for Further Support**

For any inquiries regarding safety or product performance, please reach out to your authorized dealer or the manufacturer directly.

Thank you for prioritizing safety and compliance while using the EXOS525 Pistol Compensator. Enjoy your enhanced shooting experience!
