# **Safety Instruction Guide for BLACK POWDER DOUBLE CAVITY MOLDS LEE PRECISION 45 CAL. (0.452"0.467") 250GR**

## **Introduction**

Thank you for purchasing the BLACK POWDER DOUBLE CAVITY MOLDS LEE PRECISION 45 CAL. This guide provides essential safety instructions to ensure the safe use of this product. Please read this document carefully before using the product, as it contains important information regarding safety, installation, usage, and disposal.

## **General Safety Guidelines**

- Ensure that you are familiar with the handling and usage of black powder and related components.
- Always wear appropriate safety gear, including safety glasses and gloves, when using this product.
- Keep the mold and all related equipment out of reach of children and unauthorized individuals.
- Store the product in a cool, dry place, away from sources of heat and ignition.
- Regularly inspect the mold for any signs of wear or damage before use.
- Follow all local laws and regulations regarding the use of black powder and ammunition components.

## **Specific Safety Precautions for Use**

- Always ensure that the mold is clean and free from debris before casting bullets.
- Use only the recommended bullet weights and diameters specified in the product description.
- Avoid overfilling the mold with molten lead or black powder to prevent spills and accidents.
- Allow the mold to cool down properly after use before handling it.
- Never leave molten lead unattended while it is being poured into the mold.
- Use caution when handling hot materials, as burns can occur.

## **Instructions for Installation and Usage**

### **1. Preparation:**

- Gather all necessary materials, including the mold, lead, and a heat source.
- Ensure that your work area is wellventilated and free from flammable materials.

### **2. Setup:**

- Place the mold on a stable, heatresistant surface.
- Preheat the mold according to the manufacturer's recommendations.

### **3. Casting Bullets:**

- Melt the lead using a suitable lead melting pot.
- Carefully pour the molten lead into the mold cavities, filling them to the recommended level.
- Allow the lead to cool and solidify before removing the bullets from the mold.

### **4. PostUse Care:**

- After casting, clean the mold thoroughly to remove any lead residue.
- Store the mold in a safe place, ensuring it is dry and free from moisture.

## **Disposal Instructions**

- Dispose of any lead scraps or waste materials in accordance with local regulations.
- Do not dispose of lead in regular household waste. Contact local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and usage of the BLACK POWDER DOUBLE CAVITY MOLDS LEE PRECISION 45 CAL., please refer to the manufacturer's contact details provided with the product or visit the official website for more information.

By following these safety instructions, you can ensure a safe and enjoyable experience with your BLACK POWDER DOUBLE CAVITY MOLDS LEE PRECISION 45 CAL. Thank you for choosing our product!
