Safety Instructions for BREECH LOCK PISTOL CARBIDE 3DIE SETS LEE PRECISION .32S&W LONG

Introduction

Thank you for choosing the Lee Handgun Breech Lock Carbide 3Die Set. This product is designed for reloading ammunition safely and efficiently. Please read this safety instruction guide carefully before using the product to ensure safe operation and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle all reloading equipment with care and respect.
- Ensure that you are familiar with the relevant laws and regulations regarding ammunition reloading in your country.
- Keep the reloading area clean and organized to prevent accidents.
- Store all components, including dies and tools, in a secure location away from children and unauthorized users.
- Wear appropriate safety gear, including safety glasses and gloves, when handling materials related to ammunition reloading.
- Be cautious of potential hazards, including sharp edges and heavy components.

Specific Safety Precautions for Use

- Use only the designated cartridges specified for this die set (32 S&W).
- Ensure that your workspace is wellventilated to avoid inhalation of any dust or fumes.
- Check all components for damage before use. Do not use damaged or worn parts.
- Follow all manufacturer instructions carefully.
- Do not exceed recommended load data when reloading ammunition.
- Always doublecheck measurements and settings before starting the reloading process.
- Keep fingers and hands clear of moving parts during operation.
- Never leave the reloading process unattended.

Instructions for Installation and Usage

1. Installation of Dies:

- Begin by securing the Breech Lock die in the press.
- Ensure that the die is tightened properly to prevent movement during use.
- Insert the colorcoded Smart Lock bushing into the die for easy adjustment.

2. Setup for Reloading:

- Install the Carbide Full Length Sizing Die first. This die sizes the cartridge case to the correct dimensions.
- Next, install the Powder Thru Expanding Die. This die expands the case mouth to allow for bullet seating.
- Finally, install the Bullet Seating Die. This die will seat the bullet to the desired depth.

3. Reloading Process:

- Start by placing a clean cartridge case in the shell holder.

- Operate the press handle to size the case using the Full Length Sizing Die.
- Next, operate the press handle to expand the case mouth using the Powder Thru Expanding Die.
- Measure and dispense the correct amount of powder using the Powder Dipper.
- Insert the bullet into the case mouth and use the Bullet Seating Die to seat the bullet to the specified depth.
- Inspect each completed round for quality and consistency.

4. PostUsage:

- Clean all dies and components after use to maintain their functionality.
- Store the die set and all components in a safe and dry location.

Disposal Instructions

- Dispose of any unused or expired reloading materials according to local regulations.
- Do not throw away used cartridge cases or any hazardous materials in regular trash.
- Contact local waste management authorities for proper disposal methods for hazardous waste.

Contact Information for Further Support

For any inquiries or concerns regarding the Lee Handgun Breech Lock Carbide 3Die Set, please refer to the manufacturer's website or customer service for assistance. Ensure to have your product details ready for efficient support.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Lee Handgun Breech Lock Carbide 3Die Set. Always prioritize safety and stay informed about best practices in ammunition reloading.
