Safety Instruction Guide for BREECH LOCK PISTOL CARBIDE 3DIE SETS LEE PRECISION .45 ACP

Introduction

Thank you for purchasing the BREECH LOCK PISTOL CARBIDE 3DIE SET from Lee Precision. This product is designed to assist you in reloading your own ammunition safely and efficiently. It is important to follow all safety instructions to ensure a safe reloading experience. This guide provides you with essential information on safety guidelines, precautions, installation, usage, and disposal.

General Safety Guidelines

- Always handle all reloading tools and components with care.
- Keep the workspace clean and organized to prevent accidents.
- Wear appropriate safety gear, including safety glasses and gloves, when reloading.
- Ensure that you are familiar with the operation of your reloading equipment before use.
- Store all reloading components in a secure and dry location, away from children and pets.
- Regularly check your reloading equipment for wear and tear; replace parts as needed.
- Be aware of the specific reloading data for the .45 ACP cartridge, and follow it strictly.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the die set is compatible with your specific reloading press.
- Do not exceed recommended powder loads as specified in reloading manuals.
- Always use the correct shell holder for the .45 ACP cartridge.
- Avoid distractions while reloading; focus on the task at hand.
- Never leave reloading equipment unattended while in use.
- Keep all materials away from open flames or heat sources.
- Be cautious of static electricity when handling powder.
- Follow the manufacturer's instructions for the use of bushings and dies.

Instructions for Installation and Usage

Installation

1. Assemble the Reloading Press:

- Ensure your reloading press is securely mounted to a stable work surface.
- Verify that all necessary tools are available for installation.

2. Install the Breech Lock Bushings:

- Insert the colorcoded Smart Lock bushings into the reloading press according to the manufacturer's guidelines.
- Ensure that the bushings are securely locked in place.

3. Attach the Dies:

- Begin with the Full Length Sizing Die:
 - Screw the die into the press until it is snug.
 - Adjust the die according to the manufacturer's specifications for proper sizing.
- Next, attach the Bullet Seating Die:

- Follow the same procedure as above, ensuring it is properly adjusted.
- Finally, install the Powder Thru Expanding Die:
 - Secure it in the press and adjust as necessary.

Usage

1. Prepare Your Components:

- Gather all necessary components, including brass cases, bullets, and powder.
- Inspect brass cases for defects before use.

2. Reloading Process:

- Start with the Full Length Sizing Die to resize and deprime the brass cases.
- Use the Powder Thru Expanding Die to add powder and expand the case mouth.
- Finally, use the Bullet Seating Die to seat the bullets to the correct depth.

3. Final Checks:

- Inspect finished rounds for any defects.
- Store completed ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Do not throw away hazardous materials in regular waste.
- Contact local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the BREECH LOCK PISTOL CARBIDE 3DIE SET, please refer to the product packaging or visit the manufacturer's website for additional resources and support.

By following these guidelines and instructions, you can ensure a safe and effective reloading experience with your Lee Precision die set. Always prioritize safety and stay informed about best practices in reloading. Thank you for choosing Lee Precision.
