# BREECH LOCK RIFLE 3DIE SET SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the BREECH LOCK RIFLE 3DIE SET from LEE PRECISION. This product is designed for reloading .223 Remington cartridges and includes essential tools to ensure a safe and effective reloading process. This guide provides important safety instructions and operational guidelines to help you use this product safely and effectively.

## General Safety Guidelines

- Always read and understand all instructions before using the die set.
- Keep all components out of reach of children and unauthorized users.
- Use the die set only for its intended purpose. This product is designed for reloading .223 Remington cartridges only.
- Ensure that your reloading press is compatible with the Breech Lock Quick Change feature.
- Regularly inspect all components for wear or damage before use. Do not use damaged components.
- Store the die set in a dry, safe location when not in use.
- Follow all local laws and regulations regarding ammunition reloading and storage.

## Specific Safety Precautions for Use

- Wear appropriate safety gear, including safety glasses and gloves, while reloading.
- Ensure a wellventilated workspace to avoid inhalation of any dust or particles.
- Do not consume food or drink in the reloading area to prevent contamination.
- Keep your workspace organized and free of clutter to avoid accidents.
- Use only recommended materials and components for reloading. Refer to the instructions for specific recommendations.
- Avoid distractions while reloading. Focus on the task at hand to ensure accuracy and safety.
- Do not exceed recommended powder charges. Always refer to load data for guidance.
- Be aware of potential hazards such as static electricity when handling gunpowder.

## Instructions for Installation and Usage

### 1. Setup:

- Ensure your reloading press is securely mounted and in good working condition.
- Install the Universal Shell Holder into the press according to the manufacturer's instructions.

### 2. Die Installation:

- Select the appropriate die from the set:
  - Full Length Sizing Die
  - Easy Adjust Dead Length Bullet Seating Die
  - Factory Crimp Die
- Using the colored Smart Lock bushings, install each die into the press. Ensure they are securely fastened.

### 3. Reloading Process:

- Begin by resizing the brass using the Full Length Sizing Die. Follow the die's instructions for proper adjustment.

- Next, use the Easy Adjust Dead Length Bullet Seating Die to seat bullets to the desired depth. Adjust as necessary for your specific load.
- Finally, use the Factory Crimp Die to apply a crimp to the cartridge, ensuring bullet retention during chambering.

#### **4. Powder Measurement:**

- Use the provided Powder Dipper to measure powder charges accurately. Always refer to load data for the correct powder type and charge weight.
- Verify each charge before seating bullets to ensure consistency.

#### **5. Final Checks:**

- Inspect completed cartridges for any defects or irregularities.
- Store completed ammunition in a safe and secure location.

## **Disposal Instructions**

- Dispose of any unused or expired components in accordance with local regulations.
- Do not dispose of gunpowder or primers in regular trash. Contact local hazardous waste disposal services for guidance.
- Recycle packaging materials where possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the BREECH LOCK RIFLE 3DIE SET, please refer to the manufacturer's contact information provided with the product packaging. It is recommended to keep this guide for future reference and consult it whenever necessary.

By following these guidelines, you can ensure a safe and effective reloading experience with your BREECH LOCK RIFLE 3DIE SET. Always prioritize safety and adhere to best practices while reloading. Thank you for choosing LEE PRECISION for your reloading needs.
