# BREECH LOCK RIFLE 3DIE SET SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Lee Precision Breech Lock Rifle 3Die Set for your reloading needs. This guide provides important safety instructions and usage guidelines to ensure your safety and the safe operation of this product. Please read this document carefully before using the die set.

## General Safety Guidelines

- Always handle reloading equipment and components with care to avoid accidents.
- Ensure that you are using the correct components and tools for your specific reloading tasks.
- Keep all reloading materials out of reach of children and vulnerable individuals.
- Store your reloading equipment in a secure location to prevent unauthorized access.
- Regularly inspect your equipment for wear and defects before use.
- Follow all local, state, and national regulations regarding reloading and ammunition.

## Specific Safety Precautions for Use

- Use only the recommended cartridge (22250 Remington) with this die set to avoid malfunctions.
- Always wear appropriate eye and ear protection when reloading and shooting.
- Do not exceed the recommended load specifications for your ammunition.
- Ensure your reloading area is wellventilated and free from flammable materials.
- Avoid distractions while reloading to maintain focus and accuracy.
- If you notice any unusual signs during the reloading process (e.g., excessive pressure, unusual sounds), stop immediately and inspect your setup.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary equipment, including the Breech Lock Rifle 3Die Set, Universal Shell Holder, Powder Dipper, and any other tools required.
- Ensure your reloading press is compatible with the Breech Lock Quick Change feature.

### 2. Installation:

- Insert the Full Length Sizing Die into your reloading press and secure it tightly.
- Attach the Easy Adjust Dead Length Bullet Seating Die and the Factory Crimp Die in the same manner.
- Use the colored Smart Lock bushings provided for easy identification and adjustment of dies.

### 3. Reloading Process:

- Start by resizing the brass using the Full Length Sizing Die.
- Use the Powder Dipper to measure the correct amount of powder and pour it into the resized brass.
- Insert the bullet into the brass and use the Easy Adjust Dead Length Bullet Seating Die to seat the bullet to the desired depth.
- Finally, apply a crimp using the Factory Crimp Die to secure the bullet.

### 4. Final Checks:

- Inspect each round after reloading to ensure proper assembly and check for any defects.
- Store your completed ammunition in a safe and secure location.

## **Disposal Instructions**

- Dispose of any unused or defective components according to local regulations.
- Do not discard reloading materials in regular trash; check for local hazardous waste disposal options.
- Ensure that all empty containers are disposed of safely to prevent environmental contamination.

## **Contact Information for Further Support**

For questions or concerns regarding the Breech Lock Rifle 3Die Set, please contact the manufacturer or visit their official website for assistance.

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience. Always prioritize safety and adhere to best practices when handling reloading equipment. Thank you for choosing Lee Precision.
