Safety Instruction Guide for BREECH LOCK RIFLE 3DIE SET

Introduction

Thank you for choosing the BREECH LOCK RIFLE 3DIE SET by LEE PRECISION for your reloading needs. This guide provides essential safety instructions and guidelines to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR). Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep the reloading area clean and organized to prevent accidents.
- Store all components, including dies and tools, in a secure location away from children and unauthorized users.
- Always inspect the product for damage or wear before use.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Handle all reloading components with care to avoid injuries.
- Do not exceed the recommended load data provided with the die set.
- Be aware of the potential hazards of gunpowder and primers; store them in a cool, dry place away from heat sources.
- Ensure that the reloading press is securely mounted and stable before use.
- Avoid distractions while reloading to maintain focus and accuracy.
- If you are inexperienced, seek guidance from a knowledgeable individual or take a reloading course.

Instructions for Installation and Usage

1. Installation of Dies:

- Ensure the reloading press is turned off and disconnected from any power source.
- Select the appropriate die from the BREECH LOCK RIFLE 3DIE SET: Full Length Sizing Die, Easy Adjust Dead Length Bullet Seating Die, or Factory Crimp Die.
- Insert the die into the Breech Lock bushing and secure it in place according to the manufacturer's instructions.

2. Using the Full Length Sizing Die:

- Place the brass case into the shell holder and insert it into the reloading press.
- Adjust the die to ensure proper sizing of the case according to the specifications for .270 Winchester.
- Operate the press to size the case fully.

3. Using the Bullet Seating Die:

- After sizing, place the bullet into the case mouth.
- Adjust the seating die to achieve the desired bullet seating depth.
- Operate the press to seat the bullet securely in the case.

4. Using the Factory Crimp Die:

- After seating the bullet, use the Factory Crimp Die to apply a crimp to the case.
- Adjust the die to achieve the desired crimp strength.
- Operate the press to complete the crimping process.

5. Cleaning and Maintenance:

- Regularly clean the dies and reloading press to prevent buildup of residue.
- Store the dies in a dry place and avoid exposure to moisture.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of any hazardous materials, such as gunpowder or primers, in regular trash.
- Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the BREECH LOCK RIFLE 3DIE SET, please reach out to the manufacturer or authorized dealer for assistance.

Conclusion

By following the safety guidelines and instructions outlined in this guide, you can ensure a safe and effective reloading experience with your BREECH LOCK RIFLE 3DIE SET. Always prioritize safety and compliance with regulations to enhance your reloading practices. Thank you for your attention to these important safety measures.
