Safety Instruction Guide for BREECH LOCK RIFLE 3DIE SETS LEE PRECISION .300 WINCHESTER MAG

Introduction

Thank you for choosing the BREECH LOCK RIFLE 3DIE SETS LEE PRECISION .300 WINCHESTER MAG. This product is designed for reloading ammunition safely and efficiently. To ensure your safety and the proper functioning of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle reloading equipment with care and follow all safety instructions.
- Store all components, including dies and tools, in a secure location away from children and unauthorized users.
- Use this product only for its intended purpose; do not modify or misuse.
- Be aware of your surroundings when reloading and ensure a clean, organized workspace.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and hearing protection, while reloading.
- Regularly inspect your equipment for wear or damage; replace any damaged components immediately.
- Follow local laws and regulations regarding ammunition reloading and storage.

Specific Safety Precautions for Use

- Ensure that your reloading press is compatible with the Breech Lock Quick Change feature before using this die set.
- Only use the provided components with the specified cartridge (.300 Winchester Magnum) to avoid malfunctions or accidents.
- When adjusting dies, make small incremental adjustments and check the results frequently to avoid overtightening or misalignment.
- Always check the powder charge before seating bullets to prevent double charges or undercharges.
- Keep all reloading materials, including powders and primers, in their original containers and clearly labeled.
- Avoid distractions while reloading; focus on the task at hand to maintain safety.

Instructions for Installation and Usage

1. Setup:

- Ensure your reloading press is securely mounted to a stable surface.
- Install the Universal Shell Holder into the press according to the manufacturer's instructions.

2. Installing Dies:

- Insert the Full Length Sizing Die into the Breech Lock bushing and tighten securely.
- Follow with the Easy Adjust Dead Length Bullet Seating Die and the Factory Crimp Die, ensuring each is properly secured.

3. Adjusting Dies:

- Start with the Full Length Sizing Die. Adjust the die until it makes contact with the shell holder, then back off slightly.
- For the Bullet Seating Die, adjust it according to the desired bullet length, checking frequently with a caliper.

- The Factory Crimp Die should be adjusted to apply the appropriate crimp to your ammunition.

4. Reloading Process:

- Begin by resizing the brass cases using the Full Length Sizing Die.
- Next, charge the cases with powder using the Powder Dipper, following the recommended load data.
- Seat the bullets using the Bullet Seating Die, ensuring the proper depth.
- Finally, apply a crimp with the Factory Crimp Die to ensure the bullets are securely held in place.

5. Final Checks:

- After reloading, inspect each cartridge for visual defects.
- Store completed ammunition in a safe and secure manner.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away hazardous materials, such as spent primers or powder, in regular trash. Follow your local waste management guidelines for hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the BREECH LOCK RIFLE 3DIE SETS LEE PRECISION .300 WINCHESTER MAG, please reach out to the manufacturer's customer support or refer to the product documentation included with your purchase.

By following these safety instructions, you can ensure a safe and enjoyable reloading experience. Thank you for your attention to these important guidelines.
