

# RIFLE FACTORY CRIMP DIES - LEE PRECISION .32-40 WINCHESTER CUSTOM FACTORY CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool. Tests demonstrate that even bullets which have no crimp groove will shoot more accurately. A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation. Features a collet that squeezes the case mouth into the crimping groove for a firm hold. Shellholder not included. Fits all 7/8"-14 reloading presses.

## Attributes

- Name: [LEE PRECISION .32-40 WINCHESTER CUSTOM FACTORY CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430109264

# Safety Instruction Guide for Lee Precision .3240 Winchester Custom Factory Crimp Die

## Introduction

Thank you for choosing the Lee Precision .3240 Winchester Custom Factory Crimp Die. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual carefully before use.

## General Safety Guidelines

- Always ensure that you are using the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the die for any damage or defects before use. Do not use if damaged.
- Store the die in a dry, secure location when not in use.
- Report any unsafe product conditions or accidents to relevant authorities.

## Specific Safety Precautions for Use

- Use the die only with compatible reloading presses (7/8"14 thread).
- Ensure proper handling and storage of all reloading components to avoid accidents.
- Wear appropriate safety gear, including safety glasses and gloves, while reloading.
- Ensure that the work area is wellventilated and free of distractions.
- Do not exceed the recommended load data for your ammunition.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the reloading press is securely mounted and stable.
- Remove the shellholder from the press if it is installed.
- Screw the Lee Factory Crimp Die into the reloading press until it is snug. Do not overtighten.
- Reinstall the shellholder.

### 2. Usage:

- Prepare your cartridge cases as per standard reloading procedures.
- Insert the cartridge case into the shellholder.
- Raise the ram of the press to bring the cartridge case into contact with the die.
- Adjust the die as needed to achieve the desired crimp. A firm crimp is recommended for better accuracy.
- Lower the ram to remove the cartridge case, and inspect the crimp for uniformity.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check with local recycling centers for proper disposal methods.

## Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the manufacturer's contact details provided

with the product packaging or on the manufacturer's website.

By following these guidelines, you can ensure a safe and effective reloading experience with the Lee Precision .3240 Winchester Custom Factory Crimp Die. Thank you for prioritizing safety.
