

# GUIDE ROD & SPRING KIT FOR RUGER 10/22 - KIDD INNOVATIVE DESIGN GUIDE ROD AND SPRING KIT FOR RUGER 10/22 LR

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Spring Guide Rods](#)

Upgrade the bolt handle assembly in the 10/22® Slick guide rod for easy racking Interchangeable tuning springs:(White=standard, Red=10% increase, Green=10% decrease) This great upgrade kit for your 10/22® will provide you with a comfortable bolt handle to grasp, a "super slick" guide rod, and the ability to tune the recoil of your rifle with our interchangeable springs. All bolt handle lengths are 1 3/4", which is 1/4" longer than the factory bolt handle assembly kit giving greater clearance for the shooter's knuckles while racking the bolt. The three tuning springs come in varying tensions for the ultimate in tuning capability. Though by and large the standard tension spring will serve the shooter throughout the different ammunition velocities. If, due to tolerance stacking or preferred ammunition the cycling of the action is out of sync then the shooter has the capability to change the spring without using the more primitive method of cutting coils to tune a spring. Handle Weights: black 762 (modified z shape flute)= .3 oz Precision ground guide rod is made from hardened tool steel and held to 2/10,000" tolerance throughout its entire length. The rod is nitride treated which gives its surface a 70C rockwell (harder than a file) surface hardness. Guaranteed the smoothest and slickest guide rod in the industry. Packaging Includes: bolt handle guide rod 3 tuning springs Installation instructions: After removing the stock from the barreled action, remove the trigger and bolt stop. This will allow the needed clearance for the bolt to be removed along with the bolt handle assembly. After choosing your proper spring tension slip the bolt handle assembly in from the ejection port, placing the cone end of the rod into the containment hole in the receiver. Then fully compress the bolt handle assembly while placing the bolt on it. After the mating of the bolt handle and bolt, let off the containment allowing the bolt to go forward. Install the bolt stop pin, trigger and stock. The video below offers some of the finer installation points.

## Attributes

- Name: [KIDD INNOVATIVE DESIGN GUIDE ROD AND SPRING KIT FOR RUGER 10/22 LR](#)
- Manufacturer: [KIDD INNOVATIVE DESIGN](#)
- Product no.: 430109375
- Mfr. No.: KIDD-22GRSK
- Model: 10/22, BRN-22
- Weapon type: Brownells, Ruger
- Delivery weight: 0.023kg
- Shipping height: 19mm
- Shipping width: 19mm
- Shipping length: 159mm
- UPC: 810132050060

## Item details

Made in USA  
US export classification: 0A501.x

# **Safety Instruction Guide for GUIDE ROD & SPRING KIT FOR RUGER 10/22 KIDD INNOVATIVE DESIGN**

## **Introduction**

Thank you for choosing the GUIDE ROD & SPRING KIT FOR RUGER 10/22 from KIDD INNOVATIVE DESIGN. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before installation and use.

## **General Safety Guidelines**

- Always handle firearms and firearm accessories with care and responsibility.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for wear or damage. Do not use if damaged.
- Store the product in a secure location when not in use.
- Follow all local laws and regulations regarding firearm accessories.
- Report any unsafe products or accidents to the relevant authorities.

## **Specific Safety Precautions for Use**

- Ensure that the firearm is unloaded before beginning any installation or maintenance.
- Wear appropriate safety gear, such as safety glasses, during installation.
- Be aware of potential pinch points during installation and usage.
- Use the correct spring tension as per your shooting needs to avoid cycling issues.
- Do not attempt to modify or alter the product beyond the intended use.
- If you experience any malfunctions, cease use immediately and consult a professional.

## **Instructions for Installation and Usage**

### **1. Preparation:**

- Remove the stock from the barreled action.
- Remove the trigger and bolt stop to allow clearance for the bolt to be removed.

### **2. Installation:**

- Choose the appropriate spring tension from the kit (White=standard, Red=10% increase, Green=10% decrease).
- Insert the bolt handle assembly into the ejection port, ensuring the cone end of the rod fits into the containment hole in the receiver.
- Fully compress the bolt handle assembly while placing the bolt on it.
- Once the bolt handle and bolt are mated, release the containment to allow the bolt to go forward.
- Reinstall the bolt stop pin, trigger, and stock.

### **3. PostInstallation:**

- Check that the installation is secure and that all components are functioning properly.
- Test the firearm in a safe environment to ensure proper cycling and operation.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations regarding firearm accessories.
- Do not dispose of the product in household waste.
- Contact local waste management for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or further support regarding the GUIDE ROD & SPRING KIT, please refer to the manufacturer's contact details provided on the packaging or product documentation.

Thank you for prioritizing safety and for choosing KIDD INNOVATIVE DESIGN. Enjoy your shooting experience responsibly!
