

# MAGWELL FOR GLOCK® 43X/48 - TYRANT CNC MAGWELL FOR GLOCK 43X/48 GRAY

[Handgun Parts](#) > [Frame Parts](#) > [Magazine Wells](#)

Guide your loaded magazine smoothly and quickly into the Glock pistol's grip with the sleek Glock 43x/48 Magwell from Tyrant Designs. Made of 6061 aluminum, and sporting a patent-pending design for the method of attachment, these carefully designed magwells make it so easy that with just a little practice you can load a fresh magazine without ever looking at the pistol. Win competitions or defend yourself better with those added seconds. Works with S15 magazine AND most aftermarket extensions! Increase your reloading speed In a competition, it can come down to microseconds. Speed is essential, no matter what the scenario, especially the time-lapse between magazine changes. The enhanced ergonomics of their Glock 43x/48 Magwell will increase your loading speeds. Forward relief cuts provide comfort, and an aggressive funnel ensures your reloads will be quick and successful. You'll never fumble a magazine change again. In emergency situations, fumbles are the difference between life and death. In those events, these microseconds are even more important, and you never want to question if being faster might help in a self-defense scenario. How it all works The magwell attaches using an expanding rubber grommet. This grommet goes inside the small opening inside the bottom of your Glock 43x/48. A few twists of the provided screw and the magwell is on secure, and will remain so over time! The magwell itself flairs out to create a wider opening to guide the magazine into the firearm. Shaped like a funnel, it cuts down on the fumbling and the need for an exact aim to get the magazine into the firearm. Less fumbling equals faster reload speed. Their Glock magwells for the Glock 43x/48 line also improve magazine change consistency. Designed to improve reloads Made of high-quality aluminum, these Glock 43x/48 Magwells provide weight to help improve your reloads. This weight also provides balance for your Glock. Never lose parts again with this one-piece design. Retention is more comfortable with a set screw, which is made of anodized aluminum. Functionality and retention are ensured by the underside cuts. Removal of faulty or stuck magazines will never be a problem because of ramp and edge geometry. Magwells made to fit Glock 43x and Glock 48 Designed to work on all, these Glock Magwells offer the tightest fit in the industry. Their Glock magwell is specifically made for the 43x/48 Model and has a patented method for attachment. Perfect for everyday carry The design of these Glock Magwells allows them to be perfect for competition, yet still sleek enough for every day. Because of the high-quality aluminum used, they add little bulk, which means they can still be used for concealed carry. The ergonomic design on these magwells for the Glock 43x/48 also means very little imprinting on your clothes so no one will ever know you are carrying unless you want them to. If you want to ramp up your magazine change speed, cut down on fumbles, or improve your overall consistency, these Glock Magwells are the way to go. You'll never worry about those precious seconds spent making magazine change again."

## Attributes

- Name: [TYRANT CNC MAGWELL FOR GLOCK 43X/48 GRAY](#)

# Safety Instruction Guide for MAGWELL FOR GLOCK® 43X/48 TYRANT CNC MAGWELL

## Introduction

Thank you for choosing the MAGWELL FOR GLOCK® 43X/48 by Tyrant CNC. This guide provides essential safety instructions and information to ensure the safe and effective use of your product. It is crucial to read and understand these guidelines before installation and use.

## General Safety Guidelines

- Ensure safe use of the magwell by following all instructions provided in this guide.
- Be aware of potential hazards associated with improper installation or use.
- This product is designed for use with Glock® 43X and 48 models only. Using it with other models may pose safety risks.
- Keep the magwell out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the magwell for signs of wear or damage. Do not use if damaged.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always ensure that your firearm is unloaded before installing or removing the magwell.
- Do not attempt to modify the magwell in any way. Modifications can compromise safety and functionality.
- When reloading, maintain a firm grip on the firearm to prevent accidental discharge.
- Practice reloading in a safe environment to familiarize yourself with the magwell's functionality.
- Be cautious of the magazine release mechanism; ensure it operates smoothly with the installed magwell.
- In emergency situations, prioritize safety and avoid fumbles during magazine changes.

## Instructions for Installation and Usage

### Installation

#### 1. Preparation:

- Ensure your Glock® 43X or 48 is unloaded and pointed in a safe direction.
- Gather necessary tools: a screwdriver (provided with the magwell).

#### 2. Attaching the Magwell:

- Locate the small opening at the bottom of your Glock® 43X/48 grip.
- Insert the expanding rubber grommet into the opening.
- Align the magwell with the grommet and secure it in place using the provided screw.
- Tighten the screw until the magwell is firmly attached, but avoid overtightening.

#### 3. Testing:

- After installation, test the magazine insertion and release to ensure proper functionality.
- Make sure the magwell does not obstruct any controls or mechanisms of the firearm.

### Usage

- To reload, position the magazine at the magwell's opening and push it into the grip until it clicks into place.
- Practice reloading in a controlled environment to increase speed and confidence.

- Always ensure your firearm is pointed in a safe direction during reloading.

## **Disposal Instructions**

- Dispose of the magwell in accordance with local regulations.
- If the magwell is damaged beyond repair, do not attempt to reuse it. Dispose of it safely.

## **Contact Information for Further Support**

For any safety inquiries or support related to your MAGWELL FOR GLOCK® 43X/48, please reach out to the manufacturer or your point of purchase for assistance.

## **Conclusion**

By following these safety guidelines and instructions, you can ensure the safe and effective use of the MAGWELL FOR GLOCK® 43X/48. Always prioritize safety and proper handling to enhance your shooting experience. Thank you for choosing Tyrant CNC.
