

# MAGWELL FOR GLOCK® 43X/48 - TYRANT CNC MAGWELL FOR GLOCK 43X/48 RED

[Handgun Parts](#) > [Frame Parts](#) > [Magazine Wells](#)

Guide your loaded magazine smoothly and quickly into the Glock pistol's grip with the sleek Glock 43x/48 Magwell from Tyrant Designs. Made of 6061 aluminum, and sporting a patent-pending design for the method of attachment, these carefully designed magwells make it so easy that with just a little practice you can load a fresh magazine without ever looking at the pistol. Win competitions or defend yourself better with those added seconds. Works with S15 magazine AND most aftermarket extensions! Increase your reloading speed In a competition, it can come down to microseconds. Speed is essential, no matter what the scenario, especially the time-lapse between magazine changes. The enhanced ergonomics of their Glock 43x/48 Magwell will increase your loading speeds. Forward relief cuts provide comfort, and an aggressive funnel ensures your reloads will be quick and successful. You'll never fumble a magazine change again. In emergency situations, fumbles are the difference between life and death. In those events, these microseconds are even more important, and you never want to question if being faster might help in a self-defense scenario. How it all works The magwell attaches using an expanding rubber grommet. This grommet goes inside the small opening inside the bottom of your Glock 43x/48. A few twists of the provided screw and the magwell is on secure, and will remain so over time! The magwell itself flairs out to create a wider opening to guide the magazine into the firearm. Shaped like a funnel, it cuts down on the fumbling and the need for an exact aim to get the magazine into the firearm. Less fumbling equals faster reload speed. Their Glock magwells for the Glock 43x/48 line also improve magazine change consistency. Designed to improve reloads Made of high-quality aluminum, these Glock 43x/48 Magwells provide weight to help improve your reloads. This weight also provides balance for your Glock. Never lose parts again with this one-piece design. Retention is more comfortable with a set screw, which is made of anodized aluminum. Functionality and retention are ensured by the underside cuts. Removal of faulty or stuck magazines will never be a problem because of ramp and edge geometry. Magwells made to fit Glock 43x and Glock 48 Designed to work on all, these Glock Magwells offer the tightest fit in the industry. Their Glock magwell is specifically made for the 43x/48 Model and has a patented method for attachment. Perfect for everyday carry The design of these Glock Magwells allows them to be perfect for competition, yet still sleek enough for every day. Because of the high-quality aluminum used, they add little bulk, which means they can still be used for concealed carry. The ergonomic design on these magwells for the Glock 43x/48 also means very little imprinting on your clothes so no one will ever know you are carrying unless you want them to. If you want to ramp up your magazine change speed, cut down on fumbles, or improve your overall consistency, these Glock Magwells are the way to go. You'll never worry about those precious seconds spent making magazine change again."

## Attributes

- Name: [TYRANT CNC MAGWELL FOR GLOCK 43X/48 RED](#)

# Safety Instruction Guide for MAGWELL FOR GLOCK® 43X/48 TYRANT CNC MAGWELL

## Introduction

Thank you for choosing the MAGWELL FOR GLOCK® 43X/48 TYRANT CNC MAGWELL. This product is designed to enhance your reloading speed and improve your overall firearm handling. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always handle firearms with care and respect.
- Ensure the firearm is unloaded before installing or handling the magwell.
- Keep the magwell and firearm out of reach of children and unauthorized users.
- Regularly inspect the magwell for any signs of wear or damage.
- If you notice any issues with the magwell, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- The magwell is intended for use with Glock 43X and 48 models only. Do not attempt to use it with other firearm models.
- Ensure that the magwell is securely attached before using the firearm.
- Avoid using excessive force when installing or removing the magwell to prevent damage.
- Always wear appropriate eye protection when handling firearms.
- In emergency situations, be aware that fumbles during magazine changes can be critical. Practice magazine changes to enhance your speed and accuracy.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the Glock 43X/48 is unloaded.
- Locate the small opening at the bottom of the grip.
- Insert the expanding rubber grommet into the opening.
- Use the provided screw to secure the magwell by turning it clockwise until snug.
- Confirm that the magwell is firmly in place before use.

### 2. Usage:

- To load a magazine, align it with the magwell and insert it into the firearm.
- Practice loading magazines to increase speed and familiarity.
- Regularly check the magwell for secure attachment during use.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the magwell in regular household waste. Check for recycling options in your area.
- If the magwell is damaged and cannot be reused, follow appropriate electronic waste disposal guidelines.

## Contact Information for Further Support

For any safety inquiries or further assistance regarding the MAGWELL FOR GLOCK® 43X/48 TYRANT CNC

MAGWELL, please reach out to your local authorized dealer or manufacturer support.

## **Conclusion**

By following these safety instructions, you can ensure the safe and effective use of your MAGWELL FOR GLOCK® 43X/48 TYRANT CNC MAGWELL. Always prioritize safety and practice responsible firearm handling. Thank you for your attention to these important guidelines.
