

TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO - TYRANT CNC TAKE DOWN LEVER FOR SPRINGFIELD HELLCAT BLACK

[Handgun Parts](#) > [Frame Parts](#) > [Disassembly Parts](#) > [Levers & Latches](#)

Designed with precision and functionality at its core, the Springfield Armory Hellcat Takedown Lever manufactured by Tyrant CNC is an engineering marvel crafted for enthusiasts who demand the best in their firearms. Their takedown lever is purpose-built to enhance the user's experience with the Springfield Hellcat and Hellcat Pro handguns. So, whether you're an operator in the field or a firearm enthusiast, this is the upgrade you've been waiting for.

Material & Manufacture: At Tyrant CNC, Tyrant Designs understand the importance of durability and performance. That's why this takedown lever is molded from 17-4 stainless steel, known for its strength and corrosion resistance. Once formed, each piece undergoes a bead-blasting process, giving it a uniform and aesthetically pleasing matte finish. But they didn't stop there. The lever then receives a PVD (Physical Vapor Deposition) finish, further enhancing its durability and resistance to wear, corrosion, and oxidation. The result? A takedown lever that's not just tough but is built to last a lifetime.

Design & Functionality: One of the standout features of this lever is its 2x raised surface, complemented by meticulously crafted serrations that pay homage to the OEM. These design elements don't just add to its visual appeal but play a crucial role in functionality. The increased surface area coupled with the texture provides a superior grip, whether it's for a thumb rest or ensuring that the operator can swiftly and safely engage or disengage the lever, even under challenging conditions. This is a significant improvement over the factory model, which may sometimes feel slippery or inadequate. Additionally, their engineers have introduced subtle yet impactful radius changes to the design. These modifications ensure smoother operation, making the takedown process seamless and efficient. If you've ever felt the factory Hellcat & Hellcat Pro takedown lever was a bit stiff or abrasive, you'll immediately notice the difference with the Tyrant CNC's version.

Holster Compatibility: For operators and enthusiasts, the compatibility of aftermarket parts with existing equipment is often a concern. Tyrant Design have taken this into

consideration. Despite its dimensional growth, enhanced features and superior design, this takedown lever remains fully compatible with standard holsters. This means you won't have to invest in new equipment or compromise on your carry options.

Conclusion: The Springfield Armory Hellcat and Hellcat Pro Takedown Lever by Tyrant CNC isn't just another aftermarket part; it's a testament to what's possible when engineering meets operational expertise. If you own a Springfield Hellcat or Hellcat Pro and are looking to elevate your firearm's performance, look no further. With its unparalleled durability, enhanced functionality, and seamless compatibility, it's the perfect upgrade for the discerning operator.

FEATURES
Platform: Springfield Designed For
Models: Hellcat, Hellcat Pro
Fitment Notes: Works on all Springfield Armory Hellcat series firearms (regular, Pro, RDP, etc etc) Works with most OWB and IWB Holsters
Polished radius groove for smoother action
Larger surface area for easier manipulation
Vertical Serrations Component: Takedown Lever

Safety Instruction Guide for TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO

Introduction

Thank you for choosing the Tyrant CNC Takedown Lever for your Springfield Hellcat or Hellcat Pro. This guide provides essential safety instructions and precautions to ensure the proper use and maintenance of your product. Please read this document carefully before installation and usage.

General Safety Guidelines

- Ensure that the takedown lever is compatible with your Springfield Hellcat or Hellcat Pro model.
- Always handle firearms with care and follow all relevant local laws and regulations regarding firearm safety.
- Keep the takedown lever and any firearms out of the reach of children and unauthorized users.
- Inspect the takedown lever for any signs of damage or wear before each use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- Before using the takedown lever, ensure the firearm is unloaded and pointed in a safe direction.
- Do not attempt to install the takedown lever while the firearm is loaded or in a readytofire condition.
- Ensure that the lever is securely installed before using the firearm.
- Avoid using excessive force when operating the takedown lever to prevent damage or injury.
- Be mindful of your surroundings and ensure that no one is in close proximity when operating the firearm.

Instructions for Installation and Usage

Installation Steps

1. **Ensure Safety:** Confirm that your firearm is unloaded and pointed in a safe direction.
2. **Remove the Factory Lever:** Follow the manufacturer's instructions for safely removing the factory takedown lever.
3. **Install the Tyrant CNC Takedown Lever:**
 - Align the new takedown lever with the designated slot.
 - Gently push or slide the lever into place until it is securely locked.
4. **Check Functionality:**
 - Test the lever to ensure it operates smoothly.
 - Make sure it engages and disengages without excessive force.
5. **Final Inspection:** Perform a final check to ensure everything is secure and functioning correctly.

Usage Instructions

- To engage the takedown lever, simply press or pull it as designed.
- To disengage, follow the same process, ensuring that the firearm is pointed in a safe direction.
- If you experience any resistance or difficulty in operation, stop using the lever and inspect it for any issues.

Disposal Instructions

- Dispose of the takedown lever according to local regulations regarding metal waste and firearm accessories.

- Do not dispose of the product in regular household waste.
- Consider recycling options where available.

Contact Information for Further Support

For any questions or concerns regarding the installation or use of your Tyrant CNC Takedown Lever, please refer to the manufacturer's contact details provided with your product packaging.

Thank you for your attention to these safety guidelines. Your safety is our priority, and we hope you enjoy the enhanced performance of your Springfield Hellcat or Hellcat Pro with the Tyrant CNC Takedown Lever.
