

MAGWELL FOR SIG SAUER® P320 - TYRANT CNC MAGWELL FOR SIG SAUER P320 BLACK W/BLACK SCREW

[Handgun Parts](#) > [Frame Parts](#) > [Magazine Wells](#)

Guide your loaded magazine smoothly and quickly into the Sig Sauer pistol's grip with the sleek Sig Sauer P320 Magwell from Tyrant Designs CNC. Made of 6061 aluminum, and sporting a custom screw, these carefully designed magwells make it so easy that with just a little practice you can load a fresh magazine without ever looking at the pistol. Win competitions or defend yourself better with those added seconds. Works with most aftermarket extensions and base pads for the P320! Increase your reloading speed In a competition, it can come down to microseconds. Speed is essential, no matter what the scenario, especially the time-lapse between magazine changes. The enhanced ergonomics of their Sig Sauer P320 Magwell will increase your loading speeds. Forward relief cuts provide comfort, and an aggressive funnel ensures your reloads will be quick and successful. You'll never fumble a magazine change again. In emergency situations, fumbles are the difference between life and death. In those events, these microseconds are even more important, and you never want to question if being faster might help in a self-defense scenario. How it all works The magwell itself flairs out to create a wider opening to guide the magazine into the firearm. Shaped like a funnel, it cuts down on the fumbling and the need for an exact aim to get the magazine into the firearm. Less fumbling equals faster reload speed. Their Sig Sauer magwells for the Sig Sauer P320 line also improve magazine change consistency. Designed to improve reloads Made of high-quality aluminum, these Sig Sauer P320 Magwells provide weight to help improve your reloads. This weight also provides balance for your Sig Sauer. Never lose parts again with this one-piece design. Retention is more comfortable with a set screw, which is made of anodized aluminum. Functionality and retention are ensured by the underside cuts. Removal of faulty or stuck magazines will never be a problem because of ramp and edge geometry. Magwells made to fit Sig Sauer P320 Designed to work on all, these Sig Sauer Magwells offer the tightest fit in the industry. Their Sig Sauer magwell is specifically made for the P320 Model and has a patented method for attachment. Perfect for everyday carry The design of these Sig Sauer Magwells allows them to be perfect for competition, yet still sleek enough for every day. Because of the high-quality aluminum used, they add little bulk, which means they can still be used for concealed carry. The ergonomic design on these magwells for the Sig Sauer P320 also means very little imprinting on your clothes so no one will ever know you are carrying unless you want them to. If you want to ramp up your magazine change speed, cut down on fumbles, or improve your overall consistency, these Sig Sauer Magwells are the way to go. You'll never worry about those precious seconds spent making magazine change again. Safety Instruction Guide for MAGWELL FOR SIG SAUER® P320 TYRANT CNC MAGWELL

Introduction

Thank you for choosing the MAGWELL FOR SIG SAUER® P320 TYRANT CNC MAGWELL. This product is designed to enhance your magazine loading experience with your Sig Sauer P320 pistol. To ensure safe and effective use, please read this safety instruction guide carefully. It contains important information regarding safety precautions, installation, usage, and disposal.

General Safety Guidelines

- Ensure that you are familiar with the operation of your Sig Sauer P320 before using the magwell.
- Always handle firearms safely and responsibly.
- Store the magwell and your firearm in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the magwell for any signs of damage or wear before use.
- If you experience any issues with the magwell or your firearm, discontinue use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Use the magwell only with compatible models of the Sig Sauer P320, as specified in the product description.
- Do not attempt to modify or alter the magwell in any way.
- Ensure that the firearm is unloaded before installing or removing the magwell.
- Always wear appropriate eye protection when using firearms.
- Be aware of your surroundings and ensure a safe shooting environment before loading or unloading your firearm.

Instructions for Installation and Usage

Installation

1. **Ensure Safety:** Confirm that your firearm is unloaded.
2. **Remove Existing Components:** If applicable, remove any existing magwell or base pad from your Sig Sauer P320.
3. **Align the Magwell:** Position the Tyrant CNC magwell onto the grip of your Sig Sauer P320, ensuring proper alignment with the magazine well.
4. **Secure the Magwell:** Use the custom screw provided with the magwell to secure it in place. Tighten it gently but firmly to ensure a secure fit.
5. **Check Stability:** After installation, check the magwell for stability and ensure it does not wobble or move.

Usage

- To load a magazine, guide it smoothly into the magwell opening.
- The funnel design will assist in directing the magazine into the firearm's magazine well.
- Practice loading magazines to improve your speed and efficiency.

Disposal Instructions

- Dispose of the magwell in accordance with local regulations regarding aluminum products.
- Do not dispose of the magwell in regular household waste. Instead, consider recycling options available in

your area.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please reach out to the manufacturer or authorized dealer.

This safety instruction guide is designed to help you use the MAGWELL FOR SIG SAUER® P320 TYRANT CNC MAGWELL safely and effectively. Always prioritize safety and follow the guidelines provided. Thank you for your attention to these important safety measures.
