

# MAGWELL FOR SIG SAUER® P320 - TYRANT CNC MAGWELL FOR SIG SAUER P320 BLACK W/GOLD SCREW

[Handgun Parts](#) > [Frame Parts](#) > [Magazine Wells](#)

Guide your loaded magazine smoothly and quickly into the Sig Sauer pistol's grip with the sleek Sig Sauer P320 Magwell from Tyrant Designs CNC. Made of 6061 aluminum, and sporting a custom screw, these carefully designed magwells make it so easy that with just a little practice you can load a fresh magazine without ever looking at the pistol. Win competitions or defend yourself better with those added seconds. Works with most aftermarket extensions and base pads for the P320! Increase your reloading speed In a competition, it can come down to microseconds. Speed is essential, no matter what the scenario, especially the time-lapse between magazine changes. The enhanced ergonomics of their Sig Sauer P320 Magwell will increase your loading speeds. Forward relief cuts provide comfort, and an aggressive funnel ensures your reloads will be quick and successful. You'll never fumble a magazine change again. In emergency situations, fumbles are the difference between life and death. In those events, these microseconds are even more important, and you never want to question if being faster might help in a self-defense scenario. How it all works The magwell itself flairs out to create a wider opening to guide the magazine into the firearm. Shaped like a funnel, it cuts down on the fumbling and the need for an exact aim to get the magazine into the firearm. Less fumbling equals faster reload speed. Their Sig Sauer magwells for the Sig Sauer P320 line also improve magazine change consistency. Designed to improve reloads Made of high-quality aluminum, these Sig Sauer P320 Magwells provide weight to help improve your reloads. This weight also provides balance for your Sig Sauer. Never lose parts again with this one-piece design. Retention is more comfortable with a set screw, which is made of anodized aluminum. Functionality and retention are ensured by the underside cuts. Removal of faulty or stuck magazines will never be a problem because of ramp and edge geometry. Magwells made to fit Sig Sauer P320 Designed to work on all, these Sig Sauer Magwells offer the tightest fit in the industry. Their Sig Sauer magwell is specifically made for the P320 Model and has a patented method for attachment. Perfect for everyday carry The design of these Sig Sauer Magwells allows them to be perfect for competition, yet still sleek enough for every day. Because of the high-quality aluminum used, they add little bulk, which means they can still be used for concealed carry. The ergonomic design on these magwells for the Sig Sauer P320 also means very little imprinting on your clothes so no one will ever know you are carrying unless you want them to. If you want to ramp up your magazine change speed, cut down on fumbles, or improve your overall consistency, these Sig Sauer Magwells are the way to go. You'll never worry about those precious seconds spent making magazine change again. # Safety Instruction Guide for MAGWELL FOR SIG SAUER P320

## Introduction

Thank you for choosing the MAGWELL FOR SIG SAUER P320 from Tyrant CNC. This product is designed to enhance your experience with the Sig Sauer P320 pistol. Please read this safety instruction guide carefully to ensure safe and effective use of the magwell.

## General Safety Guidelines

- Always ensure the firearm is unloaded before installing or handling the magwell.
- Familiarize yourself with the operation of your Sig Sauer P320 before using the magwell.
- Keep the magwell and all firearm accessories out of reach of children and unauthorized users.
- Inspect the magwell regularly for any signs of damage or wear.
- Do not use the magwell if it appears damaged or if you encounter any issues during operation.
- Follow all local laws and regulations regarding firearm accessories.

## Specific Safety Precautions for Use

- Ensure that the magwell is securely attached to the firearm before use.
- Practice reloading with the magwell in a safe environment to become accustomed to its operation.
- Avoid using excessive force when inserting or removing the magazine to prevent damage to the magwell or firearm.
- Be aware of your surroundings and ensure a clear line of sight when reloading.
- In emergency situations, remain calm and focus on executing the reload safely and efficiently.

## Instructions for Installation and Usage

### Installation

1. Ensure the Sig Sauer P320 is unloaded.
2. Remove any existing magwell or base pad from the firearm.
3. Align the magwell with the grip of the Sig Sauer P320.
4. Insert the custom screw provided with the magwell into the designated hole to secure it in place.
5. Tighten the screw until the magwell is firmly attached, but avoid overtightening.

### Usage

1. To load a magazine, hold the firearm with one hand and the magazine with the other.
2. Position the magazine at the opening of the magwell.
3. Push the magazine into the magwell until it clicks into place.
4. Practice this motion to increase your reloading speed and efficiency.
5. After use, always ensure the firearm is stored safely and securely.

## Disposal Instructions

- Dispose of the magwell in accordance with local regulations regarding aluminum materials.
- Do not dispose of the magwell in regular household waste.
- If the magwell is damaged beyond use, consider recycling the aluminum components.

## **Contact Information for Further Support**

For questions or concerns regarding the MAGWELL FOR SIG SAUER P320, please refer to the manufacturer's website or customer service for assistance. It is important to have access to support for any safety inquiries related to this product.

By following these safety guidelines and instructions, you can ensure a safe and efficient experience with the MAGWELL FOR SIG SAUER P320. Always prioritize safety and responsible firearm handling.
