

MAGWELL FOR SIG SAUER® P320 - TYRANT CNC MAGWELL FOR SIG SAUER P320 GOLD W/GOLD SCREW

[Handgun Parts](#) > [Frame Parts](#) > [Magazine Wells](#)

Guide your loaded magazine smoothly and quickly into the Sig Sauer pistol's grip with the sleek Sig Sauer P320 Magwell from Tyrant Designs CNC. Made of 6061 aluminum, and sporting a custom screw, these carefully designed magwells make it so easy that with just a little practice you can load a fresh magazine without ever looking at the pistol. Win competitions or defend yourself better with those added seconds. Works with most aftermarket extensions and base pads for the P320! Increase your reloading speed In a competition, it can come down to microseconds. Speed is essential, no matter what the scenario, especially the time-lapse between magazine changes. The enhanced ergonomics of their Sig Sauer P320 Magwell will increase your loading speeds. Forward relief cuts provide comfort, and an aggressive funnel ensures your reloads will be quick and successful. You'll never fumble a magazine change again. In emergency situations, fumbles are the difference between life and death. In those events, these microseconds are even more important, and you never want to question if being faster might help in a self-defense scenario. How it all works The magwell itself flairs out to create a wider opening to guide the magazine into the firearm. Shaped like a funnel, it cuts down on the fumbling and the need for an exact aim to get the magazine into the firearm. Less fumbling equals faster reload speed. Their Sig Sauer magwells for the Sig Sauer P320 line also improve magazine change consistency. Designed to improve reloads Made of high-quality aluminum, these Sig Sauer P320 Magwells provide weight to help improve your reloads. This weight also provides balance for your Sig Sauer. Never lose parts again with this one-piece design. Retention is more comfortable with a set screw, which is made of anodized aluminum. Functionality and retention are ensured by the underside cuts. Removal of faulty or stuck magazines will never be a problem because of ramp and edge geometry. Magwells made to fit Sig Sauer P320 Designed to work on all, these Sig Sauer Magwells offer the tightest fit in the industry. Their Sig Sauer magwell is specifically made for the P320 Model and has a patented method for attachment. Perfect for everyday carry The design of these Sig Sauer Magwells allows them to be perfect for competition, yet still sleek enough for every day. Because of the high-quality aluminum used, they add little bulk, which means they can still be used for concealed carry. The ergonomic design on these magwells for the Sig Sauer P320 also means very little imprinting on your clothes so no one will ever know you are carrying unless you want them to. If you want to ramp up your magazine change speed, cut down on fumbles, or improve your overall consistency, these Sig Sauer Magwells are the way to go. You'll never worry about those precious seconds spent making magazine change again. Safety Instruction Guide for MAGWELL FOR SIG SAUER P320

Introduction

Thank you for choosing the MAGWELL FOR SIG SAUER P320 by Tyrant CNC. This product is designed to enhance the functionality of your Sig Sauer P320 pistol, providing a smoother magazine insertion experience. It is important to follow the safety guidelines outlined in this document to ensure safe and effective use.

General Safety Guidelines

- Ensure that the firearm is unloaded before installation or handling of the magwell.
- Always handle firearms with care and follow basic firearm safety rules.
- Keep the magwell and firearm out of reach of children and unauthorized users.
- Regularly inspect the magwell for any signs of wear or damage.
- Do not modify the magwell or firearm in any way that could compromise safety or functionality.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use only with compatible Sig Sauer P320 models as specified in the product description.
- Avoid using the magwell with faulty or damaged magazines.
- Ensure that the magwell is securely attached before use to prevent accidental detachment.
- Practice magazine changes in a safe environment to enhance speed and efficiency.
- In emergency situations, familiarize yourself with the magwell's operation to minimize fumbling.

Instructions for Installation and Usage

Installation Steps

1. **Prepare the Firearm:** Ensure that the Sig Sauer P320 is unloaded and pointed in a safe direction.
2. **Remove Existing Components:** If applicable, remove any existing magwell or base pad from the firearm.
3. **Align the Magwell:** Position the Tyrant CNC magwell against the grip of the firearm, ensuring it fits snugly.
4. **Secure the Magwell:** Use the custom screw provided to secure the magwell in place. Ensure it is tightened but do not overtighten.
5. **Check Fitment:** Test the fitment by inserting a magazine to ensure smooth operation.

Usage Instructions

- Insert the loaded magazine into the magwell with a firm, quick motion.
- Practice loading magazines to become familiar with the magwell's functionality.
- Regularly check the attachment of the magwell to ensure it remains secure during use.

Disposal Instructions

- Dispose of the magwell in accordance with local regulations.
- If the magwell is damaged or no longer usable, consider recycling the aluminum material where possible.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please contact the manufacturer's customer

service team. They are available to assist you with any questions or concerns you may have regarding your MAGWELL FOR SIG SAUER P320.

By following these guidelines, you can ensure a safe and effective experience with your MAGWELL FOR SIG SAUER P320. Thank you for your attention to safety and responsible firearm handling.
