

# T-COMP COMPENSATOR FOR GLOCK® GEN-3 - TYRANT CNC T-COMP COMPENSATOR FOR GLOCK GEN-3 BLACK W/BLACK SCREW

[Handgun Parts](#) > [Barrel Parts](#) > [Muzzle Devices](#) > [Compensators](#)

The Tyrant Designs CNC Glock Compensator, a.k.a. the T-Comp, dramatically reduces muzzle rise and sensed recoil, allowing much quicker target re-acquisition. Compatible with 1/2-28 threaded barrels for their compensator requires no modification to their 9mm Glock, and once assembled fits most G34 holsters. The T-Comp works on Glocks Gen3-Gen5 and will function using almost any grain ammunition. The real ingenuity is in how the T-Comp is installed. Utilizing a two-piece design their Glock compensator installs securely in seconds WITHOUT the need for set screws or any other faulty attachment methods. Working on a concept focused on uncompromised innovation allowed considerable engineering freedom in developing significant solutions. Once attached, the Tyrant Compensator for Glock will not come loose while operating their firearm or while holstering/unholstering it. Whether you are a range day goer or competitive shooter they are confident their Glock compensator not only outperforms the competition but sets a new standard for compensator innovation. How does a compensator work? Their compensator works in several ways. First, there are walls within that break the flow of gasses much like a muzzle device. The gasses are then re-directed to two chambers located at the bottom of the Glock Compensator. Then, the gasses are ported upwards which creates a nose-down effect. The action of the gasses slowing as they leave the front of the comp along with the action of the gasses porting upwards reduces recoil AND muzzle rise. Why choose the Tyrant Designs CNC T-Comp compensator? The Tyrant T-Comp attaches without the need of set screws or Loctite (which is the industry standard). Most other comps/brakes require for you to ""time"" during install and potentially have to use shims. Tyrant Designs eliminate all of that by utilizing a two-piece design. This way their T-Comp installs quickly AND easily!

**FEATURES** Works on standard 1/2-28 threaded barrels for 9mm Generation specific for Gen's 3 due to guide rod Incompatible with most suppressor length threaded barrels Gen3-Gen5 compatible (Gen5 has special bullnose fitment) Functions with most grain ammo Glock 19 w/ T-Comp fits G34 Holster Installs using supplied 16mm wrench

## Attributes

- Name: [TYRANT CNC T-COMP COMPENSATOR FOR GLOCK GEN-3 BLACK W/BLACK SCREW](#)
- Manufacturer: [TYRANT CNC](#)
- Product no.: 430109528
- Mfr. No.: TD-TCOMPG3-BLK/BLK
- Model: 19X,Gen 3,17,26,34,19
- Weapon type: Glock
- Delivery weight: 0.109kg
- Shipping height: 146mm
- Shipping width: 44mm
- Shipping length: 108mm

# TCOMP Compensator Safety Instruction Guide

## Introduction

Thank you for choosing the TCOMP Compensator for your Glock® Gen3. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your compensator. Please read this document carefully before installation and use.

## General Safety Guidelines

- Ensure that the compensator is compatible with your firearm model (Glock Gen3).
- Always handle your firearm with care and treat it as if it is loaded.
- Store your compensator and firearm in a secure place, out of reach of children and unauthorized users.
- Regularly inspect your compensator for any signs of wear or damage before use.
- Follow all local laws and regulations regarding firearm modifications and usage.
- Be aware of your surroundings and ensure a safe environment when using your firearm.

## Specific Safety Precautions for Use

- **Muzzle Control:** Always keep the muzzle of your firearm pointed in a safe direction.
- **Recoil Management:** Understand that while the TCOMP compensator reduces recoil and muzzle rise, it is still essential to maintain proper shooting stance and grip.
- **Ammunition:** Use only recommended ammunition types and grain weights as specified for your compensator.
- **Installation:** Follow the installation instructions carefully to avoid improper attachment, which could lead to malfunction.
- **Holstering:** Ensure that the compensator is securely attached before holstering your firearm.
- **Shooting Range:** Be aware of range rules and ensure that the compensator does not violate any regulations at your shooting location.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including the supplied 16mm wrench.
- Ensure your firearm is unloaded and in a safe condition.

### 2. Installation Steps:

- Remove the existing muzzle device if applicable.
- Align the TCOMP compensator with the threaded barrel of your Glock.
- Use the 16mm wrench to tighten the compensator securely without overtightening.
- Ensure that the compensator is properly aligned and does not obstruct the operation of the firearm.

### 3. Usage:

- Once installed, test the compensator at a safe shooting range.
- Monitor the performance of the compensator and your firearm during use.
- If you notice any unusual behavior or performance, stop using the firearm and inspect the compensator.

## **Disposal Instructions**

- Dispose of any damaged or worn compensators in accordance with local waste disposal regulations.
- Do not dispose of your compensator in regular household waste if it is deemed unsafe or nonfunctional.
- Contact local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

- For inquiries regarding safety or product performance, please refer to the contact information provided by the manufacturer on the product packaging or their official website.

By following these guidelines, you will ensure a safe and enjoyable experience with your TCOMP Compensator. Thank you for your attention to safety, and enjoy your shooting experience!
