Safety Instruction Guide for 1911 45 ACP Flat Wire Recoil Spring System

Introduction

Thank you for choosing the Ed Brown 1911 45 ACP Flat Wire Recoil Spring System. This product is designed to enhance the performance of your handgun while ensuring safe usage. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that the firearm is unloaded before installing or handling the recoil spring system.
- Always wear appropriate safety gear, including eye protection, when working with firearms.
- Store the recoil spring system in a cool, dry place away from direct sunlight and moisture.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the recoil spring system for signs of wear or damage.
- Dispose of any damaged components properly to prevent accidents.

Specific Safety Precautions for Use

- Do not use the recoil spring system with ammunition that exceeds the manufacturer's specifications.
- Ensure that the recoil spring is correctly installed and seated before firing the handgun.
- Follow the recommended spring replacement schedule of 30,000-40,000 rounds to maintain optimal performance.
- Be aware of the potential for increased recoil and muzzle rise when using the flat wire recoil spring system.
- If you experience any malfunctions or unusual behavior in your handgun, discontinue use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure the handgun is unloaded and pointed in a safe direction.
- Gather necessary tools, including a punch tool and a cleaning cloth.

2. Disassembly:

- Remove the slide from the frame according to the manufacturer's instructions.
- Carefully remove the existing recoil spring and guide rod.

3. Installation:

- Insert the stainless steel guide rod into the slide.
- Attach the chrome silicon flat wire spring to the guide rod and ensure it is seated properly.
- Install the plug securely to hold the spring in place.

4. Reassembly:

- Align the slide with the frame and reattach it according to the manufacturer's instructions.
- Perform a function check to ensure the handgun operates correctly.

5. Usage:

- Load the handgun with appropriate ammunition and ensure it is pointed in a safe direction.
- Fire the handgun, monitoring for any unusual behavior or malfunctions.

Disposal Instructions

- Dispose of any worn or damaged components in accordance with local regulations.
- Do not dispose of the recoil spring system in regular household waste.
- Contact a local waste management facility for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the Ed Brown 1911 45 ACP Flat Wire Recoil Spring System, please consult the manufacturer's website or contact their customer support directly.

Thank you for your attention to these safety guidelines. Enjoy enhanced performance and safe usage of your firearm with the Ed Brown recoil spring system!
