Lyman Ultimate Reloading System Safety Instructions

Introduction

Thank you for choosing the Lyman Ultimate Reloading System. This comprehensive kit is designed to provide you with the tools needed for safe and efficient reloading. To ensure your safety and the safety of others, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always read the instruction manual before using any reloading equipment.
- Keep the reloading area clean and organized to prevent accidents.
- Store all reloading components, including powders and primers, in a secure location away from children and pets.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, while reloading.
- Ensure proper ventilation in your reloading area to avoid inhalation of dust and fumes.
- Do not consume food or beverages in the reloading area to prevent contamination.
- Regularly inspect your equipment for any signs of wear or damage before use.
- Keep emergency contact numbers readily accessible in case of an accident.

Specific Safety Precautions for Use

- **All American 8 Turret Press:**
 - Ensure the press is securely mounted to a stable work surface.
 - Avoid overloading the press beyond its specified capacity.
- **Gen 6 Digital Powder System:**
 - Always doublecheck powder measurements before charging cases.
 - Do not leave the powder system unattended while in use.
- **Universal® Case Trimmer:**
 - Keep fingers clear of the cutting area during operation.
 - Use the trimmer only on cases that are clean and free from debris.
- **Pro 1200 Turbo® Tumbler:**
 - Ensure the tumbler is securely closed before operation.
 - Do not exceed the recommended weight limit for media and cases.
- **EZEE Prime Hand Priming Tool:**
 - Always inspect primers for damage before use.
 - Do not force primers into cases; if resistance is encountered, stop and inspect.
- **Magnum Inertia Bullet Puller:**
 - Use the puller in a safe direction, away from yourself and others.
 - Ensure the bullet puller is securely closed before striking.

Instructions for Installation and Usage

1. Setting Up the Reloading Bench:

- Choose a sturdy surface that can support the weight of the equipment.
- Arrange tools and components for easy access during the reloading process.

2. Using the All American 8 Turret Press:

- Securely mount the press using the provided hardware.

- Follow the manual to set up the dies and adjust for the desired cartridge.

3. Operating the Gen 6 Digital Powder System:

- Connect the system to a power source and follow the setup instructions.
- Calibrate the system according to the manual before measuring powder.

4. Trimming Cases with the Universal® Case Trimmer:

- Insert the case into the trimmer and adjust the cutting length as needed.
- Turn the handle smoothly to trim the case.

5. Using the Pro 1200 Turbo® Tumbler:

- Add cases and tumbling media according to the manufacturer's guidelines.
- Secure the lid and plug in the tumbler to start the cleaning process.

6. Priming Cases with the EZEE Prime Hand Priming Tool:

- Load primers into the tool and insert the case to be primed.
- Squeeze the handle gently to seat the primer.

7. Using the Magnum Inertia Bullet Puller:

- Place the cartridge into the puller and securely close it.
- Strike the puller against a solid surface to dislodge the bullet.

Disposal Instructions

- Dispose of used primers and powder in accordance with local regulations.
- Do not throw away hazardous materials in regular trash.
- Contact local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Lyman Ultimate Reloading System, please refer to the manufacturer's website or contact their support team for assistance.

By following these safety instructions, you can enjoy a safe and productive reloading experience. Thank you for choosing the Lyman Ultimate Reloading System!
