DIGITOUCH 1500 ELECTRONIC SCALE SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the DIGITOUCH 1500 Electronic Scale. This guide provides essential safety instructions and information for the proper use and maintenance of your scale. Please read this guide carefully to ensure safe operation and compliance with EU safety regulations.

General Safety Guidelines

- Ensure that the scale is used only for its intended purpose.
- Keep the scale out of reach of children and vulnerable individuals to prevent accidents.
- Always operate the scale on a stable, flat surface to ensure accurate readings.
- Do not expose the scale to extreme temperatures, humidity, or direct sunlight.
- Regularly inspect the scale for any signs of damage or malfunction before use.
- Do not attempt to repair the scale yourself; contact a qualified professional for assistance.

Specific Safety Precautions for Use

- **Battery Safety:**
 - Use only standard cell phone chargers to recharge the internal battery.
 - Avoid shortcircuiting the battery or exposing it to water.
 - If the battery is damaged or leaking, discontinue use immediately and dispose of it according to local regulations.
- **Handling:**
 - Handle the scale with care to avoid dropping or damaging it.
 - Use the provided hardshell case for protection during transport.
- **Calibration:**
 - Always calibrate the scale before use to ensure accurate measurements.
 - Use the included calibration weight for this purpose.
- **Weight Limit:**
 - Do not exceed the maximum capacity of 1500 grains to avoid damage to the scale.

Instructions for Installation and Usage

1. Setting Up the Scale:

- Unpack the scale and ensure all components are included (scale, hardshell case, powder scoop, calibration weight).
- Place the scale on a flat, stable surface away from any obstructions.

2. Charging the Scale:

- Connect the scale to a standard cell phone charger using the appropriate charging port (Micro USB, USB Type C, or Lightning).
- Allow the scale to charge fully before first use.

3. Operating the Scale:

- Press the power button to turn on the scale.
- Wait for the LED display to stabilize before placing any items on the weighing platform.
- Use the controls to select the desired measurement unit (grains or grams).

- Place the item to be weighed gently on the platform and read the measurement from the LED display.

4. Calibration:

- To calibrate, turn on the scale and ensure it is set to the correct measurement unit.
- Place the calibration weight on the scale and follow the manufacturer's instructions to complete the calibration process.

5. Cleaning and Maintenance:

- Clean the scale with a soft, damp cloth. Do not use harsh chemicals or abrasive materials.
- Store the scale in its hardshell case when not in use to protect it from dust and damage.

Disposal Instructions

- When disposing of the scale or its components, follow local regulations for electronic waste disposal.
- Do not dispose of the scale in regular household waste.
- Ensure that the internal battery is removed and recycled according to local battery disposal guidelines.

Contact Information for Further Support

For any inquiries or support regarding your DIGITOUCH 1500 Electronic Scale, please refer to the manufacturer's contact information provided in the product packaging.

Conclusion

By following the safety guidelines and instructions in this guide, you can ensure the safe and effective use of your DIGITOUCH 1500 Electronic Scale. Thank you for your attention to these important safety measures.
