The Alternative Spring Pack Kits are a pack of 5 different spring weights for the JP Silent Captured Spring that allow custom tuning of the device to a given rifle. While the default spring offers the best performance for the widest range of configurations, a simple disassembly and reassembly of the JPSCS-15 with a slightly different spring rate can yield truly optimized performance, particularly for rifles without an adjustable gas block.

# Safety Instruction Guide for AR15 Alternate 5 Spring Pack

## Introduction

Thank you for choosing the AR15 Alternate 5 Spring Pack for JPSCS15 by J P Enterprises. This product is designed to enhance the performance of your rifle by allowing for custom tuning with different spring weights. It is essential to follow safety guidelines to ensure safe and effective use of this product. This guide provides important safety information, installation instructions, and disposal guidelines.

## General Safety Guidelines

- Ensure that the product is used only by individuals who are familiar with firearms and have received proper training.
- Always treat firearms as if they are loaded, even if you believe they are not.
- Keep the product out of reach of children and unauthorized users.
- Store the spring pack in a secure location to prevent accidental access.
- Regularly inspect the product for wear or damage before use.
- Follow all local laws and regulations regarding firearm modifications and accessories.
- If you experience any issues or have concerns about the product, cease use immediately and seek assistance.

## Specific Safety Precautions for Use

- Use the spring pack only with compatible JP Silent Captured Springs and AR15 rifles.
- Do not exceed the recommended spring weights for your specific rifle configuration.
- Ensure that the rifle is unloaded before disassembling or modifying it.
- Use appropriate tools and safety equipment when installing or adjusting the springs.
- Be cautious of potential pinching hazards when handling springs.
- Avoid using damaged or worn springs, as they may affect the performance and safety of the rifle.
- Always follow the manufacturer's recommendations for installation and usage.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the rifle is unloaded and the chamber is clear.
- Gather necessary tools and safety equipment (e.g., safety glasses, gloves).

### 2. Disassembly:

- Follow the manufacturer's instructions to safely disassemble the JPSCS15.
- Carefully remove the existing spring from the captured spring assembly.

### 3. Spring Selection:

- Choose the appropriate spring from the Alternate 5 Spring Pack based on your desired tuning and rifle configuration.
- Refer to the manufacturer's guidelines for recommended spring weights.

### 4. Installation:

- Install the selected spring into the captured spring assembly, ensuring it is seated correctly.

- Reassemble the JPSCS15 according to the manufacturer's instructions, taking care to avoid pinching hazards.

#### **5. Testing:**

- After reassembly, conduct a function check to ensure that the rifle operates correctly with the new spring.
- Fire the rifle in a safe and controlled environment to verify performance.

#### **6. Adjustment:**

- If necessary, repeat the disassembly and installation process to try different spring weights until optimal performance is achieved.

## **Disposal Instructions**

- Dispose of any damaged or worn springs in accordance with local regulations.
- Do not dispose of springs in a manner that poses a risk to the environment or public safety.
- Consider recycling options where available, or consult local waste management services for proper disposal methods.

## **Contact Information for Further Support**
