

308 AR SILENT CAPTURED SPRINGS GEN 2 - J P ENTERPRISES 308 AR SILENT CAPTURED SPRING GEN 2 W/ ALT SPRING PACK

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

The Gen 2 Drop-in captured-spring recoil system helps your AR function more smoothly and quieter without any permanent modifications. The carefully balanced, custom-ground buffer spring, combined with the JP LMOS buffer, greatly reduces friction and vibration - say goodbye to the annoying “spoon over a cheese grater” noise of conventional springs and buffers. Fits buffer tubes for both M4-style collapsible stocks and also, using the included spacer, the longer tubes for fixed rifle stocks. The Auxiliary Spring Rate Kits for the JP Silent Captured Spring allow custom tuning of the device to a given rifle. While the default spring offers the best performance for the widest range of configurations, a simple disassembly and reassembly of the JPSCS with a slightly different spring rate can yield truly optimized performance, particularly for rifles without an adjustable gas block. Benefits of the Gen 2 Silent Captured Spring include: New aluminum guide rod cuts overall weight Heavier masses translate to more buffering mass and chance of bolt bounce Full correspondence between SCS masses and H1, H2 and H3 buffers Additional mass added to both AR-10 and 9mm models for better, broader function Interchangeable buffers allow conversion between AR-15 and AR-10 models (and vice versa) Includes spacer to allow for installation in both carbine-length and rifle-length buffer tubes. The standard weight buffer weighs approximately 3.6 ounces. The buffer contains one Tungsten weight, and two steel weights.

Attributes

- Name: [J P ENTERPRISES 308 AR SILENT CAPTURED SPRING GEN 2 W/ ALT SPRING PACK](#)
- Manufacturer: [J P ENTERPRISES](#)
- Product no.: 452000214
- Mfr. No.: JPSCS210K
- Weapon type: AR .308
- Delivery weight: 0.313kg
- Shipping height: 64mm
- Shipping width: 66mm
- Shipping length: 338mm
- UPC: 812872024035

Safety Instruction Guide for 308 AR Silent Captured Springs Gen 2

Introduction

Thank you for choosing the 308 AR Silent Captured Springs Gen 2 by J P Enterprises. This product is designed to enhance the performance of your AR platform while ensuring a quieter operation. Please read this safety instruction guide carefully to ensure safe and proper use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- **Product Safety:** This product is designed to be safe for use with AR platforms. Ensure that you follow all instructions for installation and usage to minimize risks.
- **Enhanced Recalls:** In the event of a product recall, you will be notified through standardized notices. Please stay informed about any updates regarding this product.
- **Online Shopping:** If purchased online, ensure that the retailer complies with safety regulations similar to those in physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach of minors to ensure their safety.
- **EU Contact Point:** For any safety inquiries, please contact the appropriate EU-based authority.
- **Rapid Alerts:** Stay updated on potential safety alerts related to this product through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Installation:** Ensure that the Silent Captured Spring is installed correctly according to the instructions provided in this guide.
- **Inspection:** Regularly inspect the recoil system for any signs of wear or damage before use.
- **Usage:** Use only with compatible AR platforms. Do not attempt to modify or alter the product in any way.
- **Weight Considerations:** Be aware of the buffer weight and ensure that it is suitable for your specific rifle configuration.
- **Handling:** Always handle the product with care to avoid injury. Follow proper firearm handling procedures at all times.
- **Environmental Conditions:** Avoid using the product in extreme weather conditions that could affect its performance.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and safe.
- Remove the existing buffer and spring from the buffer tube.
- Insert the JP Silent Captured Spring into the buffer tube.
- Use the included spacer if necessary for installation in both carbine length and rifle length buffer tubes.
- Ensure that the installation is secure and that all components are properly aligned.

2. Usage:

- Test the firearm in a safe environment to ensure the recoil system operates correctly.
- Monitor the performance during initial uses and adjust as necessary using the Auxiliary Spring Rate Kits for optimal tuning.

- Regularly clean and maintain the recoil system to ensure continued performance and safety.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, consider recycling options for metal and plastic components.
- Ensure that all parts are disposed of safely to prevent any potential hazards.

Contact Information for Further Support

For any questions or concerns regarding the 308 AR Silent Captured Springs Gen 2, please refer to the retailer from whom you purchased the product or consult the manufacturer's website for additional support resources.

By following these safety instructions, you can ensure a safe and effective use of the 308 AR Silent Captured Springs Gen 2. Thank you for prioritizing safety and performance in your shooting experience.
