## 308 AR SILENT CAPTURED SPRING GEN 2 H2

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

The Gen 2 Drop-in captured-spring recoil system helps your AR function more smoothly and quieter without any permanent modifications. The carefully balanced, custom-ground buffer spring, combined with the JP LMOS buffer, greatly reduces friction and vibration - say goodbye to the annoying "spoon over a cheese grater" noise of conventional springs and buffers. Fits buffer tubes for both M4-style collapsible stocks and also, using the included spacer, the longer tubes for fixed rifle stocks. The H2 buffer is heavier than the standard spring. The buffer includes two Tungsten weights in addition to one steel weight. Weighing approximately 4.7 oz. Recommended for use in Short-barreled rifles, suppressed firearms, select fire rifles, and piston-operated rifles. The Auxiliary Spring Rate Kits for the JP Silent Captured Spring allow custom tuning of the device to a given rifle. While the default spring offers the best performance for the widest range of configurations, a simple disassembly and reassembly of the JPSCS with a slightly different spring rate can yield truly optimized performance, particularly for rifles without an adjustable gas block. The Heavy Spring System Version have Tungsten Weights and are recommended for Short-Barreled Rifles, Suppressed Weapons, Rifles with an H2/H3 Buffer, Select-Fire Rifles, and Piston-Operated Rifles. Benefits of the Gen 2 Silent Captured Spring include: New aluminum guide rod cuts overall weight Heavier masses translate to more buffering mass and chance of bolt bounce Full correspondence between SCS masses and H1, H2 and H3 buffers Additional mass added to both AR-10 and 9mm models for better, broader function Interchangeable buffers allow conversion between AR-15 and AR-10 models (and vice versa) Includes spacer to allow for installation in both carbine-length and rifle-length buffer tubes.

### Attributes

- Name: [JP ENTERPRISES 308 AR SILENT CAPTURED SPRING GEN 2 H2](#)
- Manufacturer: [JP ENTERPRISES](#)
- Product no.: 452000215
- Mfr. No.: JPSCS2-10H2
- Weapon type: AR .308
- Delivery weight: 0.272kg
- Shipping height: 70mm
- Shipping width: 70mm
- Shipping length: 229mm
- UPC: 812872024004

### Item details

Made in USA

US export classification: 0A501.x

# Safety Instruction Guide for the 308 AR Silent Captured Springs Gen 2 H2

## Introduction

Thank you for choosing the 308 AR Silent Captured Springs Gen 2 H2 by J P Enterprises. This guide provides important safety instructions and information to ensure the safe and effective use of your product. Please read this guide carefully before installation and use.

## General Safety Guidelines

- **Product Safety:** This product has been designed to meet safety standards. Ensure that you use it as intended to minimize risks.
- **Enhanced Recalls:** In case of any safety issues or recalls, please follow the standardized recall notices provided by the manufacturer.
- **Online Shopping:** When purchasing online, ensure that the platform complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach of minors.
- **EU Contact Point:** For any safety inquiries, refer to the contact details provided by the manufacturer or retailer.
- **Rapid Alerts:** Stay informed about any safety alerts or updates regarding this product through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Use with Compatible Firearms:** Ensure that the 308 AR Silent Captured Springs Gen 2 H2 is compatible with your firearm before installation.
- **Installation by Professionals:** We recommend that installation and any modifications be performed by a qualified gunsmith to prevent accidents.
- **Regular Inspection:** Regularly inspect the recoil system for wear or damage. Replace any damaged components immediately.
- **Use in Safe Environment:** Always use your firearm in a safe and controlled environment, following all local laws and regulations.
- **Avoid Modifications:** Do not modify the product or its components in any way as this may lead to unsafe conditions.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your firearm is unloaded and in a safe condition before starting the installation process.
- Gather all necessary tools and components, including the 308 AR Silent Captured Springs Gen 2 H2 and any required spacers.

### 2. Installation Steps:

- Remove the existing buffer and spring from your firearm.
- Install the JP Silent Captured Springs Gen 2 H2 into the buffer tube. Ensure that it is seated correctly.
- If using a fixed rifle stock, insert the included spacer as needed to accommodate the longer buffer tube.
- Reassemble the firearm according to the manufacturer's instructions.

### 3. Usage:

- Once installed, test the functionality of your firearm in a safe environment.
- Monitor the performance of the recoil system during use. If you notice any unusual sounds or behaviors, cease use immediately and inspect the system.

## Disposal Instructions

- **Disposal of Old Components:** Dispose of any old springs or buffers in accordance with local waste disposal regulations.
- **Recycling:** If possible, recycle metal components to minimize environmental impact.

## Contact Information for Further Support

For further support, please refer to the contact information provided by your retailer or manufacturer. Ensure that you have the product details available for any inquiries.

By following these safety instructions, you can ensure a safe and enjoyable experience with your 308 AR Silent Captured Springs Gen 2 H2. Thank you for your attention to these important guidelines.
