

# QUANTREX 210 ULTRASONIC CLEANING & LUBRICATION SYSTEM - L&R MFG Q-210 GUN CLEANING PACKAGE

[Gun Cleaning & Chemicals](#) > [Professional Cleaning Systems](#) > [Ultrasonic Cleaning Tanks](#)

## Fast, Hands-Free, Microscopic Cleaning For Dirty Guns & Parts

Add superfast, ultrasonic cleaning to your shop; save yourself a lot of time and make money in the process. 43KHz, Ultrasonic sound waves, plus CA2 Heat create the proven, aggressive action that s a must for thorough gun cleaning. Incremental, consistent heat along with billions of tiny scrubbing bubbles remove powder fouling, lead and jacketed bullet fouling, light rust, dirt and grease; better, faster and easier than ever before. CA2 Heat eliminates the need to use ammoniated cleaning solutions to remove copper fouling. To clean most firearms, only the most basic field strip is needed. Drop the parts into the basket, turn on the Ultrasonic cleaner and you re free to do other jobs while the cavitating action in the tank gets everything microscopically clean in as short a time as 7 to 10 minutes. The Gun Cleaning Package includes the Q-210 Ultrasonic Cleaner, Timer and Heater, (1) Q-210 Auxiliary Pan, (1) Q-210 Accessory Basket, (1) Gallon, non-ammoniated, L&R Gun Cleaning Concentrate and (2) Gallons of L&R Ultrasonic Gun Lubricating Solution. All the units are heavy duty, built for constant use in a busy shop or department. Not recommended for use with ammoniated solutions. Input: 117V; 50/60 Hz; 135 Watts Dimensions: 78" x 6-7/8" x 93/4" Peak Output: 400 Watts Tank Dimensions: 113/4" x 6" x 6" Output Frequency: 43 KHz Tank Capacity: 6 Quarts

# QUANTREX 210 Ultrasonic Cleaning & Lubrication System Safety Instruction Guide

## Introduction

Thank you for choosing the QUANTREX 210 Ultrasonic Cleaning & Lubrication System. This product is designed to provide efficient cleaning and lubrication for firearms using ultrasonic technology. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- **Product Safety:** This product is intended for nonfood use only. Ensure that it is used according to the instructions provided to avoid risks associated with improper use.
- **Enhanced Recalls:** Stay informed about product recalls. In the unlikely event of a safety issue, recall notices will be provided in a standardized format.
- **Online Shopping:** When purchasing online, ensure that the seller complies with the safety requirements applicable to physical stores.
- **Special Consumer Focus:** Extra care should be taken when this product is used around vulnerable groups, such as children. Keep the product out of reach of children.
- **EU Contact Point:** For safety inquiries, ensure that you have access to an EU-based contact for assistance.
- **Rapid Alerts:** Be aware of the Safety Gate system for updates on any unsafe products.

## Specific Safety Precautions for Use

- **Electrical Safety:**
  - Ensure that the product is connected to a power supply that meets the specified voltage and frequency (117V; 50/60 Hz).
  - Avoid using the product with damaged electrical cords or plugs.
  - Do not operate the unit with wet hands or in wet conditions.
- **Chemical Safety:**
  - Only use recommended cleaning solutions. Avoid ammoniated solutions, as they are not compatible with this cleaner.
  - Store cleaning solutions in a safe place, away from children and pets.
- **Operational Safety:**
  - Do not operate the ultrasonic cleaner without water in the tank.
  - Avoid placing your hands or any body parts into the tank during operation.
  - Do not exceed the maximum tank capacity (6 Quarts).
- **Heat Safety:**
  - The CA2 Heat feature can reach high temperatures. Avoid direct contact with heated surfaces.
  - Allow the unit to cool down before cleaning or storing.
- **Maintenance Safety:**
  - Regularly check the unit for wear and tear. If any parts are damaged, discontinue use until repairs are made.

# Instructions for Installation and Usage

## 1. Installation:

- Place the ultrasonic cleaner on a flat, stable surface away from water sources.
- Ensure adequate ventilation around the unit during operation.
- Connect the power cord to an appropriate outlet (117V; 50/60 Hz).

## 2. Preparation for Use:

- Fill the tank with water up to the maximum fill line (do not exceed 6 Quarts).
- Add the recommended L&R Gun Cleaning Concentrate to the water as per the instructions on the concentrate label.

## 3. Operating the Cleaner:

- Place the firearm parts in the Q210 Accessory Basket.
- Submerge the basket in the tank, ensuring it does not touch the bottom.
- Set the timer for the desired cleaning duration (7 to 10 minutes is recommended).
- Turn on the ultrasonic cleaner and monitor the operation.

## 4. PostOperation:

- Once the cleaning cycle is complete, turn off the unit and carefully remove the basket.
- Rinse the cleaned parts with water to remove any remaining cleaning solution.
- Dry the parts thoroughly before reassembling.

# Disposal Instructions

- Dispose of any unused cleaning solutions according to local regulations. Do not pour down the drain unless permitted.
- When disposing of the ultrasonic cleaner, follow your local electronic waste disposal guidelines.
- Ensure that all components are disposed of responsibly and do not harm the environment.

# Contact Information for Further Support

For any questions or concerns regarding the QUANTREX 210 Ultrasonic Cleaning & Lubrication System, please refer to the product documentation or contact your local retailer for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your QUANTREX 210 Ultrasonic Cleaning & Lubrication System. Enjoy the benefits of advanced ultrasonic cleaning technology!
