

QUANTREX 650 ULTRASONIC CLEANING & LUBRICATION SYSTEM - L&R MFG ULTRASONIC CLEANER

[Extreme products](#)

Fast, Hands-Free, Microscopic Cleaning For Dirty Guns & Parts

?Add superfast, ultrasonic cleaning to your shop; save yourself a lot of time and make money in the process. 43KHz, Ultrasonic sound waves, plus CA2 Heat create the proven, aggressive action that's a must for thorough gun cleaning. Incremental, consistent heat along with billions of tiny scrubbing bubbles remove powder fouling, lead and jacketed bullet fouling, light rust, dirt and grease; better, faster and easier than ever before. CA2 Heat eliminates the need to use ammoniated cleaning solutions to remove copper fouling. To clean most firearms, only the most basic field strip is needed. Drop the parts into the basket, turn on the Ultrasonic cleaner and you're free to do other jobs while the cavitation action in the tank gets everything microscopically clean in as short a time as 7 to 10 minutes. The Gun Cleaning Package used for simultaneous cleaning and lubricating tactical weapons. Includes the Q-650 Ultrasonic Cleaner, Timer and Heater, (1) Q-650 Auxiliary Pan, (2) Q-650 Accessory Baskets, (1) Cover, (4) Gallons, non-ammoniated, L&R Gun Cleaning Concentrate (makes 32 gallons of ready-to-use solution), plus (8) Gallons of L&R Ultrasonic Gun Lubricating Solution (ready-to-use). All the units are heavy duty, built for constant use in a busy shop or department. Not recommended for use with ammoniated solutions. 515-650-101 does not include the basket or the pan. Input: 117V; 50/60 Hz; 410 Watts Dimensions: 21¾" x 13¾" x 13¾" Peak Output: 1230 Watts Tank Dimensions: 19¾" x 11¾" x 6½" Output Frequency: 42 KHz Tank Capacity: 23 Quarts

QUANTREX 650 ULTRASONIC CLEANING & LUBRICATION SYSTEM Safety Instruction Guide

Introduction

Thank you for choosing the QUANTREX 650 Ultrasonic Cleaning & Lubrication System. This guide provides essential safety instructions to ensure the safe and effective use of your ultrasonic cleaner. Please read this manual thoroughly before using the product to avoid any hazards or accidents.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in this manual.
- Keep the device out of reach of children and vulnerable individuals.
- Always supervise the use of the ultrasonic cleaner when in operation.
- Inspect the device and its components regularly for any signs of damage or wear.
- Do not use the product with any ammoniated solutions, as it may damage the unit.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

• Electrical Safety:

- Ensure that the cleaner is plugged into a properly grounded electrical outlet.
- Do not operate the device with wet hands or in a damp environment.
- Avoid using extension cords that may not support the power requirements of the unit.

• Chemical Safety:

- Use only nonammoniated cleaning solutions as specified in the product description.
- Store cleaning solutions in a cool, dry place and away from direct sunlight.
- Always follow the manufacturer's instructions for mixing and using cleaning solutions.

• Operational Safety:

- Do not overload the cleaning basket; follow the recommended load capacity.
- Never place the ultrasonic cleaner in an enclosed space without proper ventilation.
- Allow the unit to cool down before cleaning or servicing.

• Physical Safety:

- Handle the device with care to avoid dropping or damaging it.
- Ensure that the tank is filled with the appropriate cleaning solution before operation.
- Use caution when removing parts from the tank, as they may be hot after cleaning.

Instructions for Installation and Usage

1. Setup:

- Place the ultrasonic cleaner on a stable, flat surface away from water and direct sunlight.
- Ensure that the power switch is in the OFF position before plugging in the device.
- Fill the tank with the appropriate cleaning solution, ensuring it does not exceed the maximum fill line.

2. **Operation:**

- Turn on the ultrasonic cleaner by switching the power button to ON.
- Set the desired cleaning time using the timer function (recommended time is between 7 to 10 minutes).
- Place the items to be cleaned in the accessory basket and lower it into the tank.
- Start the cleaning process by pressing the start button.
- Once the timer has finished, turn off the unit and carefully remove the basket.

3. **PostOperation:**

- After use, unplug the device and allow it to cool down.
- Empty the tank and clean it as per the manufacturer's instructions.
- Store the ultrasonic cleaner in a dry place, free from dust and moisture.

Disposal Instructions

- Dispose of any unused or expired cleaning solutions according to local regulations.
- The device itself should be disposed of in accordance with local electronic waste regulations.
- Ensure that all components are disposed of responsibly to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the QUANTREX 650 Ultrasonic Cleaning & Lubrication System, please refer to the manufacturer's contact information provided in the product packaging or visit the official website.

By following these safety instructions, you can ensure a safe and effective experience with your QUANTREX 650 Ultrasonic Cleaning & Lubrication System. Thank you for your attention to these important guidelines.
