

DIGITAL LEAD THERMOMETER - LYMAN DIGITAL LEAD THERMOMETER

[Reloading](#) > [Bullet Casting](#) > [Casting Furnaces & Accessories](#)

Those who cast their own lead bullets have taken the next step in the reloading process, and the use of a Lyman Digital Lead Thermometer can ensure they produce the highest-quality bullets possible. The Lyman Digital Lead Thermometer provides bulletmakers with one of the quickest and most-precise methods of keeping track of temperatures during the casting process. Uses 6-inch probe for use with large furnaces Measures both Fahrenheit and Celsius Hold button locks readings on display The Lyman Digital Lead Thermometer gives reloaders another safety and quality tool in their arsenal to ensure that they produce quality reloads.

Attributes

- Name: [LYMAN DIGITAL LEAD THERMOMETER](#)
- Manufacturer: [LYMAN](#)
- Product no.: 539000077
- Mfr. No.: 2867797
- Delivery weight: 0.204kg
- Shipping height: 51mm
- Shipping width: 102mm
- Shipping length: 216mm
- UPC: 011516277978

Lyman Digital Lead Thermometer Safety Instruction Guide

Introduction

Thank you for choosing the Lyman Digital Lead Thermometer. This product is designed for those who cast their own lead bullets, providing a quick and precise method for monitoring temperatures during the casting process. To ensure safe and effective use of this thermometer, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the thermometer in accordance with the manufacturer's instructions.
- Ensure that the thermometer is used in a wellventilated area to avoid inhalation of fumes.
- Keep the thermometer out of reach of children and vulnerable individuals.
- Regularly check the thermometer for any signs of damage or malfunction before use.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Handle the thermometer with care to avoid damage to the probe.
- Do not immerse the thermometer in water or any other liquid.
- Avoid contact with hot surfaces or molten lead to prevent burns.
- Use the thermometer only for its intended purpose; do not use it for measuring temperatures outside of lead casting.
- Ensure the thermometer is properly calibrated before use for accurate readings.
- Always wear appropriate personal protective equipment (PPE) when working with lead and molten materials, including gloves and safety goggles.

Instructions for Installation and Usage

1. Unboxing and Inspection

- Remove the thermometer from its packaging.
- Inspect the thermometer for any visible signs of damage. If any damage is found, do not use the product.

2. Powering the Thermometer

- Insert the required batteries, following the polarity indications within the battery compartment.
- Ensure the thermometer powers on properly before use.

3. Using the Probe

- Insert the 6inch probe into the molten lead, ensuring it is fully submerged for accurate temperature readings.
- Wait for the display to stabilize before recording the temperature.

4. Switching Between Fahrenheit and Celsius

- Use the designated button to toggle between Fahrenheit and Celsius readings as needed.

5. Locking the Display

- Press the hold button to lock the current temperature reading on the display for easy reference.

6. Cleaning and Maintenance

- Clean the probe with a soft cloth after each use to remove any residue.
- Store the thermometer in a dry place, away from extreme temperatures.

Disposal Instructions

- Dispose of the thermometer in accordance with local regulations regarding electronic waste.
- Remove batteries before disposal and recycle them according to local guidelines.

Contact Information for Further Support

For safety inquiries, product support, or to report any issues, please refer to the manufacturer's contact information provided with the product.

By following these safety instructions, you can ensure a safe and effective experience with your Lyman Digital Lead Thermometer. Thank you for your attention to safety and quality in your lead casting process.
