## High-Quality Stainless Steel At A Moderate Price

LYMAN DIAL CALIPER The Lyman Dial Caliper is a precision measuring instrument designed for gunsmiths and reloaders who require accurate and reliable measurements. Crafted from rugged stainless steel, this caliper provides inside, outside, depth, and step measurements with ease. The clear, easy-to-read dial is graduated in 0.001-inch increments, ensuring precise readings for critical dimensions. Key Features: Versatile Measurements: Capable of performing inside, outside, depth, and step measurements to accommodate various measuring needs. High Precision: Graduated in 0.001-inch increments, allowing for meticulous measurements essential in gunsmithing and reloading tasks. Durable Construction: Made from rugged stainless steel, ensuring longevity and consistent performance in demanding workshop environments. User-Friendly Dial: Features a clear, easy-to-read dial that enhances readability and reduces the likelihood of measurement errors. Specifications: Material: Stainless steel Measurement Range: 0 to 6 inches Accuracy: 0.001-inch graduations Functions: Inside, outside, depth, and step measurements Customer Insights: Customers consistently commend the Lyman Dial Caliper for its precision and ease of use. The versatility in measurement functions allows users to tackle a variety of tasks with a single tool. The durable stainless-steel construction is appreciated for withstanding regular use without compromising accuracy. Additionally, the clear dial display facilitates quick and accurate readings, enhancing overall efficiency in reloading and gunsmithing projects. Incorporating the Lyman Dial Caliper into your toolkit ensures precise measurements, contributing to the quality and safety of your firearm maintenance and reloading endeavors.

## Attributes

- Name: [LYMAN DIAL CALIPER STAINLESS STEEL](#)
- Manufacturer: [LYMAN](#)
- Product no.: 539832212
- Mfr. No.: 7832212
- Accuracy: 0.001"
- Colour: Stainless Steel
- Height: 3.6"
- Length: 9.6"
- Material: Stainless Steel
- Measuring Range: 0-6"
- Model Number: Dial Caliper
- Weight: 0.8 lbs
- Width: 5.6"
- Delivery weight: 0.295kg
- Shipping height: 28mm
- Shipping width: 89mm
- Shipping length: 249mm
- UPC: 011516822123

# Safety Instruction Guide for DIAL CALIPER LYMAN DIAL CALIPER STAINLESS STEEL

## Introduction

Thank you for choosing the Lyman Dial Caliper Stainless Steel. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the caliper to understand how to operate it safely and effectively.

## General Safety Guidelines

- Ensure that the product is used for its intended purpose as specified in the product description.
- Always inspect the caliper for any signs of damage or wear before use.
- Keep the caliper clean and free from debris to ensure accurate measurements.
- Store the caliper in its case when not in use to prevent damage.
- Be aware of your surroundings while using the caliper to avoid accidents.

## Specific Safety Precautions for Use

- **Accuracy:** The caliper measures with an accuracy of 0.001". Ensure that you understand how to read the dial correctly to avoid measurement errors.
- **Measuring Range:** The caliper has a measuring range of 06". Do not attempt to measure objects outside this range.
- **Handling:** Handle the caliper with care. Avoid dropping it or exposing it to extreme temperatures, which may affect its accuracy.
- **Thumb Roller:** Use the thumb roller gently to slide the measuring jaws. Excessive force may damage the mechanism.
- **Locking Mechanism:** Always use the slide lock when taking measurements to ensure stability and accuracy.
- **Case:** Use the provided case for storage. This will protect the caliper and prolong its life.

## Instructions for Installation and Usage

### 1. Initial Setup:

- Remove the caliper from its case.
- Ensure that the dial is set to zero before taking measurements. If necessary, adjust the dial to zero using the thumb roller.

### 2. Taking Measurements:

- For inside measurements: Place the inside jaws of the caliper around the object being measured.
- For outside measurements: Place the outside jaws around the object.
- For depth measurements: Insert the depth probe into the hole or recess.
- For step measurements: Place the step measuring edge against the step or edge of the object.
- Read the measurement from the dial. Ensure that you are reading the correct graduation (in .001" increments).

### 3. After Use:

- Clean the caliper with a soft cloth to remove any dirt or moisture.
- Store the caliper in its case to prevent damage.

## Disposal Instructions

- When the caliper reaches the end of its life cycle, dispose of it in accordance with local regulations for metal products.
- Do not dispose of the caliper in regular household waste. Check with local authorities for proper disposal methods.

## Contact Information for Further Support

For any safety inquiries or further support regarding the Lyman Dial Caliper, please refer to the contact information provided with the product packaging or on the manufacturer's website.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure safe and effective use of your Lyman Dial Caliper Stainless Steel.
