

M1/M14 MIL-SPEC CLEANING KIT - JOHN MASEN M1 GARAND KIT

[Gun Cleaning & Chemicals](#) > [Cleaning Kits](#) > [Rifle Cleaning Kits](#)

Authentic, Issue Kits for Restoration & Field Use

Genuine, unissued GI components provide authentic restoration for the M1 Garand or when building a GI-type M1A. Makes a great take-along kit for range and field use with non-military .30 caliber rifles, too. Kits include cleaning rod sections and combination tool handle, bore brush, patch loop, and cloth case. M10 Combination Tool from the M1 Garand kit also available separately.

M1/M14 MILSPEC CLEANING KIT USER SAFETY INSTRUCTIONS

Introduction

Thank you for purchasing the M1/M14 MILSPEC CLEANING KIT by JOHN MASEN. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this cleaning kit. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the cleaning kit is used only for its intended purpose, which is to clean and maintain .30 caliber rifles, including the M1 Garand and Glttype M1A.
- Always handle cleaning tools with care to prevent injury.
- Keep the cleaning kit out of reach of children and vulnerable individuals.
- Inspect all components of the cleaning kit for damage before use. Do not use any damaged items.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

Specific Safety Precautions for Use

- Always ensure that the firearm is unloaded before cleaning.
- Use the cleaning rod sections and bore brush as instructed to avoid damaging the firearm's barrel.
- Wear safety glasses to protect your eyes from any cleaning solvents or debris.
- Do not use excessive force when using the combination tool or cleaning rod to avoid injury or damage to the firearm.
- Dispose of used cleaning patches and materials properly to prevent environmental harm.

Instructions for Installation and Usage

1. Preparation:

- Gather all components of the cleaning kit, including the cleaning rod sections, combination tool handle, bore brush, patch loop, and cloth case.
- Ensure that the firearm is unloaded and in a safe position for cleaning.

2. Assembling the Cleaning Rod:

- Connect the cleaning rod sections by screwing them together until secure.
- Attach the bore brush to the end of the cleaning rod.

3. Cleaning the Bore:

- Insert the bore brush into the barrel from the chamber end.
- Use a backandforth motion to clean the bore thoroughly.
- Repeat with cleaning patches as needed to remove debris.

4. Using the Combination Tool:

- Utilize the combination tool for various cleaning tasks as required.
- Ensure that the tool is used properly to avoid damage to the firearm.

5. Storing the Kit:

- After use, clean all components and store them in the provided cloth case.

- Keep the cleaning kit in a cool, dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of used cleaning materials and patches in accordance with local waste disposal regulations.
- Do not dispose of any components of the cleaning kit in water sources or environments that could cause pollution.

Contact Information for Further Support

For any safety inquiries or additional support related to the M1/M14 MILSPEC CLEANING KIT, please refer to the contact details provided on the product packaging or visit the manufacturer's official website.

Conclusion

By following these safety instructions, you can ensure a safe and effective cleaning experience with your M1/M14 MILSPEC CLEANING KIT. Always prioritize safety and proper handling when maintaining your firearms. Thank you for your attention to these important guidelines.
