Safety Instructions

Introduction

Thank you for choosing the CLASSIC SWIVEL STUD NECG MACHINE STUD. This document provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this manual carefully before installation and use.

General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's specifications.
- Regularly inspect the product for any signs of wear or damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities immediately.
- Stay informed about recall updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the machine stud is properly secured before use to prevent accidental detachment.
- Avoid overtightening the machine stud, as this may lead to damage or failure.
- Use only compatible Uncle Mike's style swivels with this product to ensure safe operation.
- Do not modify the machine stud or its components, as this may compromise safety.
- Always wear appropriate safety gear when handling tools during installation.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools for installation, including a compatible wrench for securing the nut.
- Ensure that the work area is clean and free of hazards.

2. Installation:

- Locate the desired position for the machine stud on your custom inletted base.
- Drill a hole that accommodates the 1032 tpi shaft of the machine stud.
- Insert the machine stud into the drilled hole.
- Secure the machine stud in place using the provided nut. Ensure it is tightened adequately but do not overtighten.

3. Usage:

- Attach your Uncle Mike's style swivel to the machine stud.
- Check that the swivel is securely attached before using the product.
- Regularly inspect the connection for any signs of wear or looseness.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, consider recycling options available in your area.
