

AR-15 AMBIDEXTROUS DUAL LOOP SLING ATTACHMENT PLATE - PRO MAG AR-15 AMBIDEXTROUS DUAL LOOP SLING ATTACHMENT PLATE

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Tactical Sling Mounts](#)

A Single-Point Sling Attachment for Your AR-Style Carbine

One of the easiest and most versatile ways to carry your AR-15 and get it into action quickly is with a single-point sling, and this ambidextrous Dual Loop Sling Attachment Plate replaces your mil-spec rear receiver plate and allows for fast, easy attachment of any standard single-point sling. This ambidextrous Dual Loop Sling Attachment Plate is made from carbon steel and finished with a black-oxide treatment. The design of this sling attachment allows users to attach a hook-style fastener through the loops integrated into the plate. The loop design allows users to wear their gun on either the left or right side. Each sling-attachment plate is made right here in the USA.

Safety Instruction Guide for AR15 Ambidextrous Dual Loop Sling Attachment Plate

Introduction

Thank you for choosing the AR15 Ambidextrous Dual Loop Sling Attachment Plate by PRO MAG. This guide provides important safety information, installation instructions, and usage tips to ensure safe operation and compliance with EU safety regulations.

General Safety Guidelines

- Ensure that the sling attachment plate is compatible with your AR15 model.
- Always inspect the attachment plate for any signs of damage before use.
- Use only with standard singlepoint slings designed for this type of attachment.
- Keep the product out of reach of children and unauthorized users.
- Do not modify or alter the sling attachment plate in any way.
- Always follow local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

- Always ensure that your firearm is unloaded before attaching or detaching the sling.
- When using the sling, ensure that it is properly secured to prevent accidental detachment.
- Avoid placing your finger on the trigger until you are ready to fire.
- Be aware of your surroundings and ensure that the firearm is pointed in a safe direction at all times.
- If you experience any unusual noises or issues while using the sling, stop using it immediately and inspect for any problems.

Instructions for Installation and Usage

Installation

1. Remove the Existing Plate:

- Ensure the firearm is unloaded.
- Use the appropriate tools to remove the existing milspec rear receiver plate.

2. Attach the Dual Loop Sling Attachment Plate:

- Align the ambidextrous Dual Loop Sling Attachment Plate with the mounting holes on the rear receiver.
- Secure the plate using the provided screws, ensuring they are tightened but not overtorqued.

3. Attach the Sling:

- Thread the hookstyle fastener of your singlepoint sling through one of the loops on the attachment plate.
- Ensure that the sling is securely attached and can withstand the intended use.

Usage

- To wear your firearm with the sling, adjust the strap length to ensure a comfortable fit.
- The ambidextrous design allows you to switch sides easily; simply detach and reattach the sling to the opposite loop as needed.
- Always perform a safety check before using the firearm with the sling attached.

Disposal Instructions

- Dispose of the sling attachment plate responsibly.
- If the product is no longer usable, check local regulations for proper disposal methods.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any inquiries regarding safety, usage, or installation, please refer to your local retailer or manufacturer's website for assistance.

Thank you for your attention to these safety guidelines. Enjoy your AR15 Ambidextrous Dual Loop Sling Attachment Plate responsibly and safely.
