## Instructions for Installation and Usage

### 1. Preparation:

- Select the appropriate tap size (e.g., 832) for your application.
- Ensure the tap and workpiece are clean and free from debris.

### 2. Tapping Process:

- Align the tap perpendicular to the workpiece surface.
- Start turning the tap slowly to engage the threads.
- Apply consistent pressure while turning the tap to prevent binding.
- Use cutting fluid to enhance performance and prolong tool life, if necessary.
- After the desired depth is reached, reverse the tap to break the chip and remove it from the hole.

### 3. PostUsage Care:

- Clean the taps after use to prevent rust and deterioration.
- Store taps in a dry, secure location away from moisture.

## **Disposal Instructions**

- Dispose of any damaged or worn taps in accordance with local regulations.
- Do not dispose of taps in regular household waste if they contain hazardous materials. Check for specific disposal guidelines in your area.
