

PERFECT CUT™! PREMIUM TWO FLUTE TAPS - REIFF & NESTOR COMPANY PERFECT CUT PREMIUM TWO FLUTE BOTTOM TAP 3-36 THREAD

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Taps & Dies](#) > [Taps](#)

PERFECT CUT™ PREMIUM TWO FLUTE TAPS The Reiff & Nestor Company Perfect Cut™ Premium Two Flute Tap is a high-quality tool designed for gunsmiths and firearm enthusiasts seeking precise and efficient threading solutions. Crafted from high-speed tool steel, these taps are engineered to deliver exceptional performance and durability. Two-Flute Taps: Spread tapping stress over two large flutes, providing more chip space, which is beneficial when tapping soft steels. These taps are popular for machine tapping and perform well in hand operations. Specifications: Material: High-speed tool steel Thread Sizes Available: 3-56 6-48 6-40 Customer Insights: Users of the Reiff & Nestor Company Perfect Cut™ Premium Two Flute Tap have expressed satisfaction with its performance, noting the precision and quality of the threads produced. The taps have received an average rating of 3.4 out of 5 stars from verified buyers, indicating a generally positive reception. Incorporating the Reiff & Nestor Company Perfect Cut™ Premium Two Flute Tap into your gunsmithing toolkit ensures reliable and accurate threading, enhancing the quality and longevity of firearm components.

Safety Instruction Guide for PERFECT CUT™ PREMIUM TWO FLUTE TAPS

Introduction

Thank you for choosing the Reiff & Nestor Company Perfect Cut™ Premium Two Flute Tap. This guide provides essential safety instructions and guidelines to ensure safe and effective use of this product. Please read and follow these instructions carefully to maximize your safety and the performance of the tool.

General Safety Guidelines

- Ensure that the tap is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using the tap.
- Keep the working area clean and well-lit to prevent accidents.
- Store the tap in a safe place, out of reach of children and vulnerable individuals.
- Regularly inspect the tap for damage or wear before use. Do not use if damaged.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the tap only for its intended purpose: threading in materials such as soft steel.
- Ensure the material being tapped is securely clamped to prevent movement.
- Use cutting fluid to reduce friction and heat buildup during tapping.
- Do not apply excessive force; let the tap do the work to avoid breakage.
- If the tap becomes stuck, do not force it; instead, reverse the rotation gently to release it.
- For machine tapping, ensure that the machine is properly set up and that you are familiar with its operation before use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials.
- Ensure the tap is clean and free from debris.

2. Setup:

- Select the appropriate size tap for your threading needs (available sizes: 356, 648, 640).
- If using a tap handle, insert the tap securely into the handle.

3. Tapping Process:

- Align the tap perpendicular to the material surface.
- Start turning the tap slowly to create the initial thread.
- After a few turns, back the tap out slightly to clear chips and debris.
- Continue this process until the desired thread depth is achieved.

4. Finishing:

- Once completed, carefully remove the tap from the material.
- Clean any remaining chips from the tapped hole.

Disposal Instructions

- Dispose of the tap responsibly in accordance with local regulations.
- Do not dispose of the tap in regular household waste if it is damaged or worn.
- Consider recycling options for metal tools where available.

Contact Information for Further Support
