

# SINCLAIR BULLET SEATING DEPTH TOOL - SINCLAIR INTERNATIONAL 0.785" BULLET SEATING DEPTH GUIDE

[Reloading](#) > [Measuring Tools](#) > [Bullet Seating Depth Tools](#)

The Sinclair Bullet Seating Depth Tool has been used for decades by handloaders seeking the most accuracy out of their rifles. Our newest model is made from one fourth inch ground and polished stainless steel with one end turned down for use with 17 and 20 caliber rifles and the other end used for 22 caliber and up. This tool helps you determine the length of a loaded round touching the rifling. The Sinclair Seating Depth Tool will work with most bolt action, single shot and AR type rifles. The tool includes a Delrin action guide suitable for most bolt-action rifles (0.690" Diameter fits Remingtons, Savages, Winchesters, and many Rugers). For the most accurate measurement, the Sinclair Bullet Seating Depth Tool uses your fireformed brass and bullets so you can expect an exact measurement, every time. Also available are guides use in AR-15's, AR-10's, and Tubb's 2000's. The guide is a little different than our standard bolt-action guides. This guide inserts into the back of the upper receiver (with the bolt removed). The tool is then used as normal. For best results couple this tool with our Bullet Comparators and a good set of calipers to get repeatable and precise Base-To-Ogive measurements.

## Attributes

- Name: [SINCLAIR INTERNATIONAL 0.785" BULLET SEATING DEPTH GUIDE](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749001231
- Mfr. No.: 59-4785
- Action Fit: Sig Sauer
- Diameter (in): 0.785"
- Delivery weight: 0.023kg
- Shipping height: 13mm
- Shipping width: 83mm
- Shipping length: 146mm

# Sinclair Bullet Seating Depth Tool Safety Instructions

## Introduction

Thank you for choosing the Sinclair Bullet Seating Depth Tool. This tool is designed to help handloaders achieve optimal accuracy with their rifles. It is important to follow safety guidelines to ensure safe and effective use of this product.

## General Safety Guidelines

- Always read and understand the instructions before using the tool.
- Ensure the tool is used in accordance with the manufacturer's specifications.
- Keep the tool out of reach of children and unauthorized users.
- Inspect the tool before each use to ensure it is in good working condition.
- Report any defects or issues to the manufacturer immediately.
- Do not use the tool for any purpose other than its intended use.
- Wear appropriate safety gear, including eye protection, when using the tool.

## Specific Safety Precautions for Use

- Ensure that the firearm is unloaded and pointed in a safe direction before using the tool.
- Only use the tool with compatible calibers as specified in the product description.
- Avoid using excessive force when inserting or adjusting the tool to prevent damage.
- Be cautious of sharp edges and points on the tool.
- Do not leave the tool unattended while in use.
- Always follow safe firearm handling practices when measuring and loading ammunition.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your firearm is unloaded and safe.
- Gather your fireformed brass and bullets for accurate measurement.

### 2. Using the Tool:

- For bolt action and single shot rifles:
  - Insert the Delrin action guide into the action of the rifle.
  - Adjust the tool to the desired depth and ensure it is securely in place.
- For AR type rifles:
  - Remove the bolt from the upper receiver.
  - Insert the guide into the back of the upper receiver.
  - Use the tool as normal to measure the bullet seating depth.

### 3. Measuring:

- Gently close the action of the rifle to allow the bullet to touch the rifling.
- Record the measurement as indicated by the tool.
- Repeat the process for consistency and accuracy.

### 4. Post Use:

- Remove the tool from the firearm.
- Clean the tool as necessary to maintain its condition.

## Disposal Instructions

- Dispose of the tool in accordance with local regulations.
- If the tool is no longer usable, consider recycling metal parts where applicable.
- Do not dispose of the tool in regular household waste.

## Contact Information for Further Support

For any inquiries or concerns regarding the Sinclair Bullet Seating Depth Tool, please refer to the manufacturer's website or customer service for assistance.

By following these safety instructions, you can ensure a safe and effective experience with the Sinclair Bullet Seating Depth Tool. Thank you for prioritizing safety while enhancing your handloading practices.
