

SINCLAIR BULLET SEATING DEPTH TOOL - SINCLAIR INTERNATIONAL 0.825" BULLET SEATING DEPTH GUIDE

[Reloading](#) > [Measuring Tools](#) > [Bullet Seating Depth Tools](#)

The Sinclair Bullet Seating Depth Tool has been used for decades by handloaders seeking the most accuracy out of their rifles. Our newest model is made from one fourth inch ground and polished stainless steel with one end turned down for use with 17 and 20 caliber rifles and the other end used for 22 caliber and up. This tool helps you determine the length of a loaded round touching the rifling. The Sinclair Seating Depth Tool will work with most bolt action, single shot and AR type rifles. The tool includes a Delrin action guide suitable for most bolt-action rifles (0.690" Diameter fits Remingtons, Savages, Winchesters, and many Rugers). For the most accurate measurement, the Sinclair Bullet Seating Depth Tool uses your fireformed brass and bullets so you can expect an exact measurement, every time. Also available are guides use in AR-15's, AR-10's, and Tubb's 2000's. The guide is a little different than our standard bolt-action guides. This guide inserts into the back of the upper receiver (with the bolt removed). The tool is then used as normal. For best results couple this tool with our Bullet Comparators and a good set of calipers to get repeatable and precise Base-To-Ogive measurements.

Attributes

- Name: [SINCLAIR INTERNATIONAL 0.825" BULLET SEATING DEPTH GUIDE](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749001232
- Mfr. No.: 59-4825

Sinclair Bullet Seating Depth Tool Safety Instructions

Introduction

Thank you for choosing the Sinclair Bullet Seating Depth Tool from Sinclair International. This tool is designed for handloaders seeking to achieve maximum accuracy with their rifles. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the tool in accordance with the manufacturer's instructions.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use for any signs of damage or wear.
- Use the tool only with compatible firearms to ensure safe operation.
- Store the tool in a safe and secure location when not in use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded and pointed in a safe direction before using the tool.
- Always wear appropriate eye protection while using the tool.
- Handle the tool with care to avoid any injury from sharp edges or points.
- Do not exceed the recommended dimensions or specifications while using the tool.
- Use caution when inserting or removing the tool from the firearm to prevent damage to the firearm or the tool itself.
- Be aware of your surroundings and ensure that no one is near you while using the tool.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded.
- Gather all necessary equipment, including the Sinclair Bullet Seating Depth Tool, fireformed brass, and bullets.

2. Using the Tool:

- For boltaction rifles:
 - Insert the Delrin action guide into the chamber of the rifle.
 - Use the tool to measure the length of the loaded round touching the rifling.
- For ARtype rifles:
 - Remove the bolt from the upper receiver.
 - Insert the guide into the back of the upper receiver.
 - Proceed with measuring as you would with a standard boltaction guide.

3. Measurement:

- For the most accurate measurement, use your fireformed brass and bullets.
- Combine the tool with Bullet Comparators and a good set of calipers for precise BaseToOgive measurements.

4. PostUse:

- Carefully remove the tool from the firearm.
- Clean the tool if necessary and store it safely.

Disposal Instructions

- Dispose of the tool in accordance with local regulations.
- If the tool is damaged beyond repair, consider recycling the materials where possible.
- Do not dispose of the tool in regular household waste.

Contact Information for Further Support

For any safety inquiries or further support regarding the Sinclair Bullet Seating Depth Tool, please refer to the manufacturer's contact details provided with your purchase.

By following these safety instructions, you can ensure a safe and effective experience with the Sinclair Bullet Seating Depth Tool. Thank you for your attention to these important guidelines.
