

SINCLAIR BULLET SEATING DEPTH TOOL - SINCLAIR INTERNATIONAL 0.838" BULLET SEATING DEPTH GUIDE

[Reloading](#) > [Measuring Tools](#) > [Bullet Seating Depth Tools](#)

The Sinclair Bullet Seating Depth Tool has been used for decades by handloaders seeking the most accuracy out of their rifles. Our newest model is made from one fourth inch ground and polished stainless steel with one end turned down for use with 17 and 20 caliber rifles and the other end used for 22 caliber and up. This tool helps you determine the length of a loaded round touching the rifling. The Sinclair Seating Depth Tool will work with most bolt action, single shot and AR type rifles. The tool includes a Delrin action guide suitable for most bolt-action rifles (0.690" Diameter fits Remingtons, Savages, Winchester, and many Rugers). For the most accurate measurement, the Sinclair Bullet Seating Depth Tool uses your fireformed brass and bullets so you can expect an exact measurement, every time. Also available are guides use in AR-15's, AR-10's, and Tubb's 2000's. The guide is a little different than our standard bolt-action guides. This guide inserts into the back of the upper receiver (with the bolt removed). The tool is then used as normal. For best results couple this tool with our Bullet Comparators and a good set of calipers to get repeatable and precise Base-To-Ogive measurements.

Attributes

- Name: [SINCLAIR INTERNATIONAL 0.838" BULLET SEATING DEPTH GUIDE](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749001235
- Mfr. No.: 59-4838
- Action Fit: Kleingunther, Weatherby Mark V, Ruger Precision Rifle, Ruger American
- Diameter (in): 0.838"
- Delivery weight: 0.023kg

Safety Instruction Guide for the Sinclair Bullet Seating Depth Tool

Introduction

Thank you for choosing the Sinclair Bullet Seating Depth Tool. This guide provides essential safety instructions to ensure the safe and effective use of this tool. Please read this guide carefully before using the product.

General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Ensure that the tool is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of damage or wear before use.
- Do not use the tool if it appears damaged or malfunctioning.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU Safety Gate platform.

Specific Safety Precautions for Use

- Use the Sinclair Bullet Seating Depth Tool only with the appropriate caliber rifles as specified in the product description.
- Always wear safety glasses when using this tool to protect your eyes from any debris.
- Ensure that the rifle is unloaded and pointed in a safe direction before using the tool.
- Do not force the tool into the chamber; it should fit snugly but not require excessive pressure.
- Avoid placing fingers near the action of the rifle while using the tool.
- Be cautious of sharp edges on the tool and handle it with care to prevent injury.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the rifle is unloaded and safe to handle.
- Select the appropriate end of the tool for your caliber (17/20 or 22 and up).

2. Using the Tool:

- Insert the Delrin action guide into the rifle's chamber.
- Gently close the bolt, ensuring that the tool is in contact with the rifling.
- Note the measurement indicated by the tool for your loaded round length.
- Remove the tool carefully from the chamber after use.

3. For ARtype Rifles:

- Remove the bolt from the upper receiver.
- Insert the guide into the back of the upper receiver.
- Use the tool as described above for accurate measurements.

4. PostUse:

- Clean the tool after use to remove any debris or residue.
- Store the tool in a safe and dry location, away from children.

Disposal Instructions

- Dispose of the tool according to local regulations for metal products.
- Do not dispose of in regular household waste.
- If the tool is damaged beyond repair, consider recycling it at a designated facility.

Contact Information for Further Support

For any inquiries or concerns regarding the Sinclair Bullet Seating Depth Tool, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for your attention to these safety instructions. Enjoy your experience with the Sinclair Bullet Seating Depth Tool, and stay safe!
