

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.344

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.344](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001918
- Mfr. No.: 73344
- Diameter (in): .344
- Delivery weight: 0.005kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733444

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.344

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.344. This guide provides important safety information and instructions to ensure the safe use of this product. Please read this document carefully before using the bushings.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Always inspect the bushings for any signs of damage or wear before each use.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidents.
- Follow all local regulations regarding the use and disposal of metal products.

Specific Safety Precautions for Use

- Handle the bushings with care to avoid injury from sharp edges.
- Use personal protective equipment (PPE) such as gloves and safety goggles when handling and installing the bushings.
- Ensure that the sizing diameters are properly matched to the intended application to avoid mechanical failure.
- Do not exceed the recommended sizing limits as indicated in the product specifications.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting the installation.
- Ensure that the work area is clean and free from obstructions.

2. Installation:

- Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
- Insert the bushing into the designated area, ensuring a snug fit.
- If necessary, use a mallet or other appropriate tool to gently tap the bushing into place, ensuring not to damage the bushing or surrounding components.

3. Usage:

- Once installed, monitor the bushing during use for any unusual noises or signs of wear.
- If any issues are detected, discontinue use immediately and inspect the bushing for damage.

Disposal Instructions

- Dispose of the bushings in accordance with local waste disposal regulations.
- Do not dispose of the bushings in regular household waste; consider recycling options if available.
- Ensure that any discarded bushings are rendered unusable to prevent accidental injury.

Contact Information for Further Support

For any safety inquiries or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.344, please refer to the contact information provided on the packaging or product documentation.

Conclusion

By following the guidelines and instructions outlined in this document, you can ensure the safe and effective use of your STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.344. Your safety is our priority, and we appreciate your attention to these important details.
