

# Wilson Case Mouth Deburring Tool - 45 degrees - L.E. WILSON

## CASE TRIMMER UNIFORM DEBURRING TOOL 45 DEGREES

[Reloading](#) > [Case Preparation](#) > [Case Mouth Chamfering](#)

Wilson produces two case mouth deburring tools for use in the Wilson Case Trimmer. The deburring tools mount in the cutter bearing and each includes a crank style handle. Cases are held in the trimmer case holders and are held square to the deburring tool. This tool deburs the inside of the case mouth only. The tool is available in the standard 45-degree (WUD45) chamfer and in a 30-degree (WUD30) chamfer for use with VLD bullets. The handle is included, but can be removed to use a Sinclair power adaptor (WSA) so you can power the operation with a drill or rechargeable screwdriver. Not recommended for use on brand new cases.

### Attributes

# Wilson Case Mouth Deburring Tool Safety Instructions

## Introduction

Thank you for choosing the Wilson Case Mouth Deburring Tool. This tool is designed to provide a safe and efficient way to deburr the inside of case mouths during reloading. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the tool is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Always inspect the tool before use to ensure it is in good working condition.
- Report any unsafe conditions or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the tool only with the Wilson Case Trimmer.
- Do not use the deburring tool on brand new cases as this may lead to damage.
- Always wear safety goggles to protect your eyes from metal shavings.
- Keep hands and other body parts away from the cutting area during operation.
- If using a drill or rechargeable screwdriver, ensure it is compatible with the Sinclair power adaptor (WSA) before use.
- Do not attempt to modify or repair the tool without proper knowledge and expertise.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the Wilson Case Trimmer is unplugged before installation.
- Remove the crank handle from the deburring tool if it is attached.
- Insert the deburring tool into the cutter bearing of the Wilson Case Trimmer.
- If using the Sinclair power adaptor, connect it to the deburring tool and ensure it is securely fastened.
- Reattach the crank handle if using it manually.

### 2. Usage:

- Place the case securely in the trimmer case holder.
- Ensure the case is held square to the deburring tool for effective deburring.
- If using the manual handle, turn it smoothly to deburr the inside of the case mouth.
- If using a drill or rechargeable screwdriver, activate the power and allow the tool to deburr the case mouth.
- After deburring, remove the case and inspect it for any remaining burrs.

## Disposal Instructions

- Dispose of any metal shavings and debris in accordance with local regulations.
- If the tool is no longer usable, follow local guidelines for disposing of electronic and metal products.
- Do not dispose of the tool in regular household waste.

## **Contact Information for Further Support**

For any safety inquiries or support regarding the Wilson Case Mouth Deburring Tool, please refer to the official Wilson website or customer service channels.

Thank you for your attention to these safety guidelines. Your safety is our priority. Enjoy using your Wilson Case Mouth Deburring Tool responsibly!
