

CO-AX REPLACEMENT JAWS - LS SHELL HOLDER JAWS FOR CO-AX PRESS

[Reloading](#) > [Shellholders & Shellplates](#)

This heavy duty press has several innovative features that make it one of the best reloading presses for threaded dies on the market. The design includes: 1) Snap-in, snap-out die change making die changing a two second operation, 2) Automatic self-acting shellholder which supports the case by spring loaded jaws, 3) Positive spent primer catcher collects spent primers and carbon in a container. This press can be used with all standard 7/8"-14 dies (many of them with existing lock rings). Works with all Redding Competition Dies. Great new cover for the Co-Ax Press made from breathable heavy nylon to prevent moisture buildup.

COAX Replacement Jaws LS Shell Holder Jaws for COAX Press Safety Instructions

Introduction

Thank you for choosing the COAX Replacement Jaws LS Shell Holder Jaws for COAX Press. This product is designed to enhance your reloading experience. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the COAX Press is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when operating the press.
- Keep the work area clean and free from clutter to prevent accidents.
- Store the COAX Replacement Jaws in a dry, cool place when not in use to prevent damage.
- Regularly inspect the product for wear and tear. Replace any damaged parts immediately.
- Be aware of the specific cartridge types that are compatible with this product: 22 Hornet 3030 Winchester 3040 Krag 307 Winchester

Specific Safety Precautions for Use

- Before starting, ensure that the COAX Press is securely mounted on a stable surface.
- Never attempt to change dies or adjust the press while it is in operation.
- Use only compatible dies (all standard 7/8"14 dies) to avoid malfunctions.
- Do not exceed the recommended load specifications for your cartridges.
- Keep hands and other body parts away from moving parts during operation.
- If you experience any unusual noises or resistance during operation, stop immediately and inspect the press.

Instructions for Installation and Usage

1. Installation of Replacement Jaws:

- Ensure the COAX Press is unplugged and not in operation.
- Remove the existing jaws from the shell holder by following the manufacturer's guidelines.
- Align the COAX Replacement Jaws with the shell holder and press them into place until they snap securely.
- Verify that the jaws are properly installed and securely fastened.

2. Using the COAX Press:

- Place the appropriate cartridge into the shell holder.
- Secure the cartridge by ensuring the jaws are gripping it properly.
- Perform die changes by utilizing the snapin, snapout feature, making sure each die is properly seated.
- After reloading, use the positive spent primer catcher to collect spent primers and carbon.

3. Maintenance:

- Regularly clean the press and jaws to prevent buildup of debris and ensure smooth operation.
- Lubricate moving parts as per the manufacturer's recommendations.

Disposal Instructions

- When disposing of the COAX Replacement Jaws or any components, follow local regulations for waste disposal.
- Do not dispose of any parts in a manner that may harm the environment.
- Consider recycling components where possible.

Contact Information for Further Support

For any inquiries regarding safety or product functionality, please contact the manufacturer directly. Ensure that you have the product details and any relevant information ready for a quick response.

By following these safety instructions, you can ensure a safe and enjoyable reloading experience with your COAX Replacement Jaws LS Shell Holder Jaws for COAX Press.
