

# WILSON NECK REAMER - 25 CALIBER (0.256") INSIDE NECK REAMER

[Reloading](#) > [Case Preparation](#) > [Case Neck Reamers](#)

Thick necks can cause high chamber pressures and erratic shooting. Wilson neck reamers remove excess neck material to insure adequate clearance exists between the case neck and the chamber. Also, these reamers can be used when forming wildcats from a parent case. Reamers are used in the Wilson trimmer in place of the trimmer cutter. Standard reamers are sized for use on fired, unsized cases and measure .0025" - .003" larger than bullet diameter. Custom size reamers can be ground (allow 6-8 week delivery).

## INSIDE NECK REAMER Safety Instructions

### Introduction

Thank you for choosing the WILSON NECK REAMER 25 CALIBER (0.256") INSIDE NECK REAMER. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this manual carefully before using the reamer.

### General Safety Guidelines

- Always use the neck reamer in accordance with the manufacturer's instructions.
- Ensure the work area is clean and welllit to prevent accidents.
- Keep the neck reamer out of reach of children and unauthorized users.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the reamer.
- Regularly inspect the neck reamer for any signs of damage or wear before each use.
- Be aware of your surroundings and ensure no one is in close proximity while operating the reamer.
- Report any unsafe conditions or incidents to appropriate authorities.

### Specific Safety Precautions for Use

- Do not exceed the recommended size specifications when using the neck reamer.
- Use the reamer only on fired, unsized cases as specified in the product details.
- Avoid using excessive force when reaming to prevent tool damage or injury.
- Ensure the reamer is securely attached to the Wilson trimmer before use.
- Always follow the correct procedure for reaming to avoid damaging the cases or the reamer itself.
- If you are unsure about the correct usage, seek assistance from a knowledgeable individual or professional.

### Instructions for Installation and Usage

#### 1. Installation of the Neck Reamer:

- Ensure the Wilson trimmer is unplugged and safely stored.
- Remove the trimmer cutter from the trimmer.
- Carefully insert the neck reamer into the designated slot of the trimmer.
- Secure the neck reamer in place according to the trimmer's instructions.
- Check that the reamer is firmly attached and cannot come loose during operation.

#### 2. Using the Neck Reamer:

- Prepare your fired, unsized cases by ensuring they are clean and free of debris.
- Place the case securely in the Wilson trimmer.
- Turn on the trimmer following the manufacturer's guidelines.
- Gradually feed the case into the neck reamer, allowing it to remove excess material.
- Monitor the process closely to avoid overreaming.
- Once the desired neck clearance is achieved, turn off the trimmer and remove the case.

#### 3. PostUse Care:

- Clean the neck reamer and the trimmer after each use to maintain performance.
- Store the neck reamer in a safe and dry location away from children and pets.

## **Disposal Instructions**

- Dispose of any damaged or worn neck reamer responsibly according to local regulations.
- Do not throw the neck reamer in regular household waste.
- Check with local authorities for specific disposal guidelines related to metal tools.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the WILSON NECK REAMER 25 CALIBER (0.256") INSIDE NECK REAMER, please refer to the manufacturer's contact information provided on the product packaging or visit the official website.

By following these safety instructions, you can ensure a safe and effective experience with the WILSON NECK REAMER. Thank you for your attention to safety.
