

DECAPPING DIE KIT - REDDING DECAPPING DIE KIT

[Reloading](#) > [Case Cleaning](#) > [Decapping Dies & Accessories](#)

Redding decapping dies allow you to deprime and clean your cases prior to sizing. Their small decapping die will handle cases from .22 thru .50 caliber with case lengths up to 2.5 inches. An optional decapping rod is available for .17 thru .20 caliber cases. This optional rod will also accommodate the small .060 inch flash holes found on the PPC and BR cases. For longer cases lengths up to 3.0 inch, select cases smaller than 7mm in neck size. Dies sold separately or as a complete kit. RD69100 Small Decapping Die RD69200 Large Decapping Die RD69250 Optional .17/.20 Caliber Rod RD69500 Complete Decapping Die Kit (includes both dies and optional rod)

Redding Decapping Die Kit Safety Instructions

Introduction

Thank you for choosing the Redding Decapping Die Kit. This guide provides essential safety instructions and guidelines to ensure the safe use of your decapping dies. Please read this document carefully before using the product.

General Safety Guidelines

- Always use the decapping die kit in accordance with the manufacturer's instructions.
- Ensure that your workspace is clean and organized to prevent accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the dies for damage or wear before use.
- If you notice any defects or issues, do not use the product and contact the manufacturer for assistance.

Specific Safety Precautions for Use

- Wear appropriate safety gear, including safety glasses and gloves, when using the decapping die kit to protect against potential injuries.
- Ensure that the decapping die is securely installed in your reloading press before use.
- Avoid excessive force when depriming cases to prevent damage to the die or injury.
- Use only compatible cases as specified in the product description. Do not attempt to deprime cases that exceed the recommended specifications.
- Be cautious when handling spent primers and debris, as they can be hazardous.

Instructions for Installation and Usage

1. Installation of the Decapping Die:

- Remove the decapping die from its packaging.
- Securely attach the die to your reloading press according to the press's instructions.
- Ensure the decapping pin is properly aligned and functioning.

2. Using the Decapping Die:

- Select the appropriate case size for your decapping die.
- Insert the case into the die, ensuring it is seated correctly.
- Gently pull the handle of the reloading press to deprime the case.
- Inspect the case to confirm that the primer has been removed.

3. Using the Optional Decapping Rod (if applicable):

- If using the optional .17/.20 caliber rod, ensure it is securely attached to the die.
- Follow the same steps as above for depriming smaller caliber cases.

4. PostUse Care:

- Clean the dies after use to prevent residue buildup.
- Store the dies in a safe, dry place to avoid damage.

Disposal Instructions

- Dispose of spent primers and debris in accordance with local regulations.

- Do not dispose of any part of the decapping die kit in regular household waste.
- Check with local waste management authorities for proper disposal methods of hazardous materials.

Contact Information for Further Support

For safety inquiries or concerns regarding the Redding Decapping Die Kit, please reach out to the designated EU contact point provided with your product packaging or documentation.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Decapping Die Kit. Thank you for your attention to safety.
