

PRECISION MIC CARTRIDGE HEADSPACE TOOL - RCBS 30-06 SPRINGFIELD PRECISION MIC

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

These micrometer cartridge headspace tools will enable you to set up full length sizing dies for the precise amount of shoulder bump you wish. Precision Mic gages are initially calibrated on a once-fired case, and the micrometer will read shoulder set back variation from initial set-up. Each Precision Mic kit also includes a bullet seating depth tool for initial seater die set-up.

Safety Instruction Guide for PRECISION MIC CARTRIDGE HEADSPACE TOOL RCBS 3006 SPRINGFIELD PRECISION MIC

Introduction

Thank you for choosing the PRECISION MIC CARTRIDGE HEADSPACE TOOL by RCBS. This tool is designed to assist you in setting up fulllength sizing dies for your reloading needs. To ensure safe and effective use of this product, please read and follow the guidelines outlined in this safety instruction guide.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the product.
- Use the tool only for its intended purpose as described in this manual.
- Keep the tool out of reach of children and unauthorized users.
- Inspect the tool for any damage or wear before each use. Do not use if damaged.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while using the tool.
- Avoid using the tool in wet or damp conditions to prevent electrical hazards.
- Ensure that the workspace is clean, organized, and free from distractions.
- Do not force the tool beyond its designed capabilities.
- Be aware of your surroundings and ensure that no one is in the immediate vicinity while using the tool.

Instructions for Installation and Usage

1. Initial Setup

- Start with a oncefired 3006 Springfield case for calibration.
- Follow the manufacturer's instructions to calibrate the Precision Mic.

2. Using the Precision Mic

- Place the case in the Precision Mic tool.
- Adjust the micrometer to measure the shoulder bump.
- Record the measurements for reference when setting up your fulllength sizing dies.

3. Bullet Seating Depth Tool

- Use the included bullet seating depth tool for initial seater die setup.
- Follow the instructions provided with the bullet seating depth tool for accurate measurements.

4. Maintenance

- Clean the tool regularly to ensure accuracy and longevity.
- Store the tool in a dry place when not in use to prevent corrosion.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the tool in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further support regarding the use of this product, please reach out to the designated EU contact point provided with your purchase.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with the PRECISION MIC CARTRIDGE HEADSPACE TOOL.
