

# TYPE S BUSHING FULL DIES - REDDING 6MM BR SMALL BASE BUSHING FULL LENGTH TYPE S DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

## Attributes

# **Safety Instruction Guide for TYPE S BUSHING FULL DIES REDDING 6MM BR SMALL BASE BUSHING FULL LENGTH TYPE S DIE**

## **Introduction**

Thank you for choosing the TYPE S BUSHING FULL DIES from Redding. This product is designed for fulllength resizing of cartridge cases while maintaining precise control over the case neck. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## **General Safety Guidelines**

- Ensure that all users are familiar with the operation and handling of reloading equipment.
- Always wear appropriate safety gear, including safety glasses, when using this product.
- Keep all components and tools out of reach of children and unauthorized users.
- Regularly inspect the product for wear and damage before use.
- Follow all local laws and regulations regarding the reloading of ammunition.

## **Specific Safety Precautions for Use**

- Handle the die and its components with care to avoid injury.
- Do not exceed the recommended sizing operations as specified in the product manual.
- Ensure that the bushing is properly adjusted before beginning the resizing process.
- Avoid using damaged or worn bushings; replace them immediately to maintain safety and performance.
- Keep your work area clean and organized to prevent accidents.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure that your reloading press is clean and free of debris.
- Remove the existing die from the press if applicable.
- Insert the TYPE S BUSHING FULL DIE into the press and secure it according to the manufacturer's instructions.
- Attach the adjustable decapping rod and ensure it is secured.

### **2. Usage:**

- Select the appropriate bushing for your cartridge size.
- Adjust the bushing position using the decapping rod as needed.
- Begin the resizing process by following these steps:
  - Insert the cartridge case into the shell holder.
  - Raise the ram to engage the die with the case.
  - Slowly lower the ram to resize the case, ensuring that the bushing selfcenters on the neck.
- Inspect the resized case for any defects or issues before proceeding with further reloading steps.

## **Disposal Instructions**

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of reloading materials or components in regular household waste.
- Check with local authorities for proper disposal methods for hazardous materials.

## **Contact Information for Further Support**

For any inquiries regarding safety or product performance, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your TYPE S BUSHING FULL DIES. Always prioritize safety and compliance with local regulations. Thank you for your attention to these important guidelines.
