

PRO-SERIES CARBIDE + G1298 DIE SETS - REDDING 45 COLT/454 CASULL CARBIDE 3-DIE SET

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

For those of you who want the best in pistol dies consider a Redding Titanium Carbide Set. Titanium Carbide has the highest hardness of any readily available carbide and provides a slick, non-galling surface. The price is a little higher but no lubrication is needed and your cases will glide through the sizing die. Pro Series Pistol Die Sets are designed for use in progressive reloading machines. The expander die is eliminated from the set and a separate crimp die is substituted. The set includes a carbide sizing die, bullet seater (no crimp type), and a separate crimp die. Please note: These dies are specifically designed for progressive machines that expand the case mouth at the powder metering station so no expander die is included with this die set.

PROSERIES CARBIDE + G1298 DIE SETS REDDING 45 COLT/454 CASULL CARBIDE 3DIE SET Safety Instructions

Introduction

Thank you for choosing the PROSERIES CARBIDE + G1298 DIE SETS REDDING 45 COLT/454 CASULL CARBIDE 3DIE SET. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the die set.

General Safety Guidelines

- Ensure that all safety precautions are followed when using this die set.
- Always wear appropriate safety gear, including safety glasses and gloves, while reloading.
- Keep the work area clean and organized to prevent accidents.
- Store the die set in a safe location, out of reach of children and pets.
- Regularly inspect the die set for wear or damage. Do not use if any components are damaged.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Only use this die set with compatible cartridges: 45 Colt and 454 Casull.
- Ensure your reloading machine is in good working condition before use.
- Do not exceed the recommended load limits for the cartridges you are reloading.
- Use only the recommended components (powder, primers, and bullets) for reloading.
- Avoid distractions while reloading to maintain focus and prevent accidents.
- Never point the die set or any reloaded ammunition at yourself or others.
- In case of a malfunction or if you suspect a problem, stop using the die set immediately and consult a qualified professional.

Instructions for Installation and Usage

1. Preparation:

- Read the reloading manual for the specific cartridge you are working with.
- Gather all necessary tools and components before starting the reloading process.

2. Installation of the Die Set:

- Secure the carbide sizing die in the press according to the manufacturer's instructions.
- Install the bullet seater die in the press, ensuring it is properly adjusted for the desired bullet length.
- Install the separate crimp die as the last step in the process.

3. Reloading Process:

- Start by resizing the cases using the carbide sizing die. Ensure cases are clean and free of debris.
- After resizing, proceed to the powder metering station to dispense the appropriate amount of powder into each case.
- Place a bullet on top of the powderfilled case and use the bullet seater die to seat the bullet to the desired depth.
- Finally, use the crimp die to apply a crimp to the case mouth, ensuring the bullet is securely held in.

place.

4. PostReloading:

- Inspect each round for proper seating and crimping.
- Store reloaded ammunition in a safe and organized manner, clearly labeled with the caliber and load information.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away used primers or powder in regular trash. Follow local hazardous waste disposal guidelines.
- Recycle packaging materials where possible.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product packaging. Always ensure that you are following the latest safety guidelines and recommendations.

Thank you for prioritizing safety while using the PROSERIES CARBIDE + G1298 DIE SETS REDDING 45 COLT/454 CASULL CARBIDE 3DIE SET. Your attention to these instructions will help ensure a safe reloading experience.
