Safety Instruction Guide for RCBS Auto Priming Tool

Introduction

Thank you for choosing the RCBS Auto Priming Tool. This benchmounted priming tool is designed for efficient and safe primer application without the need for direct contact with the primers. To ensure your safety and the longevity of the product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the work area is clean, dry, and welllit to avoid accidents.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep the tool out of reach of children and vulnerable individuals.
- Do not use the tool for any purpose other than its intended use.
- Regularly inspect the tool for wear or damage before use.
- Follow all local regulations regarding the safe handling and disposal of primers and ammunition components.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware that primers are sensitive materials. Handle them with care to avoid accidental ignition.
- **Avoid Static Electricity:** Ensure that your work area is free from static electricity to prevent accidental discharges.
- **Proper Storage:** Store primers in a cool, dry place away from direct sunlight and heat sources.
- **No Food or Drink:** Do not eat, drink, or smoke while using or handling the tool and primers.
- **Emergency Procedures:** Familiarize yourself with emergency procedures in case of an accident or fire.

Instructions for Installation and Usage

Installation

1. **Choose a Suitable Location:** Select a stable and secure surface for mounting the priming tool.
2. **Mount the Tool:** Use screws or clamps to securely attach the tool to the work surface, ensuring it does not move during operation.
3. **Attach Shell Holder:** Insert the appropriate RCBS press type shellholder for the cases you will be priming.
4. **Install Primer Feed Tubes:** Attach the large and small primer feed tubes as needed, ensuring they are securely fitted.

Usage

1. **Prepare the Tool:**
 - Ensure the tool is clean and free from debris.
 - Check that the primer rod assemblies are correctly installed for either large or small primers.
2. **Load Primers:**
 - Fill the primer feed tubes with the appropriate primers.
 - Ensure that the primers are seated correctly in the feed tubes.

3. **Priming Process:**

- Place a case into the shell holder.
- Activate the priming mechanism according to the manufacturer's instructions.
- Observe the primer dropping process, ensuring no fingers come into contact with the primers.

4. **PostUsage:**

- Remove any unused primers from the feed tubes and store them safely.
- Clean the tool after use to maintain its functionality.

Disposal Instructions

- Dispose of used primers and any hazardous materials in accordance with local regulations.
- Do not dispose of primers in regular household waste.
- Consult local authorities or hazardous waste disposal services for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the RCBS Auto Priming Tool, please refer to the manufacturer's website or contact the customer support team for assistance. Ensure you have your product details and any relevant information at hand when seeking support.

By following these safety instructions, you can ensure a safe and effective experience with your RCBS Auto Priming Tool. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
