

SINCLAIR BULLET SEATING DEPTH TOOL - SINCLAIR INTERNATIONAL BULLET SEATING DEPTH GUIDE, AR-15

[Reloading](#) > [Measuring Tools](#) > [Bullet Seating Depth Tools](#)

The Sinclair Bullet Seating Depth Tool has been used for decades by handloaders seeking the most accuracy out of their rifles. Our newest model is made from one fourth inch ground and polished stainless steel with one end turned down for use with 17 and 20 caliber rifles and the other end used for 22 caliber and up. This tool helps you determine the length of a loaded round touching the rifling. The Sinclair Seating Depth Tool will work with most bolt action, single shot and AR type rifles. The tool includes a Delrin action guide suitable for most bolt-action rifles (0.690" Diameter fits Remingtons, Savages, Winchesters, and many Rugers). For the most accurate measurement, the Sinclair Bullet Seating Depth Tool uses your fireformed brass and bullets so you can expect an exact measurement, every time. Also available are guides use in AR-15's, AR-10's, and Tubb's 2000's. The guide is a little different than our standard bolt-action guides. This guide inserts into the back of the upper receiver (with the bolt removed). The tool is then used as normal. For best results couple this tool with our Bullet Comparators and a good set of calipers to get repeatable and precise Base-To-Ogive measurements.

Attributes

- Name: [SINCLAIR INTERNATIONAL BULLET SEATING DEPTH GUIDE, AR-15](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749008968

Safety Instruction Guide for the Sinclair Bullet Seating Depth Tool

Introduction

Thank you for choosing the Sinclair Bullet Seating Depth Tool. This tool is designed to help handloaders achieve the highest accuracy in their rifles. It is important to use this tool safely and effectively. This guide provides essential safety instructions, usage guidelines, and contact information for further support.

General Safety Guidelines

- Always read and understand the instructions before using the tool.
- Ensure that the tool is used in a safe environment, free from distractions.
- Keep the tool out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, such as eye protection, when using the tool.
- Regularly inspect the tool for any signs of wear or damage before use.
- If you notice any defects or issues with the tool, do not use it and seek assistance.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded and pointed in a safe direction before using the tool.
- Do not use the tool if you are unsure about its operation or if you are not familiar with bullet seating depth.
- Always use the tool with the correct caliber of bullets and brass as specified in the product description.
- Avoid using excessive force when measuring or adjusting bullet seating depth.
- Never modify the tool or use it for purposes other than intended.
- Be cautious of sharp edges on the tool; handle it with care to prevent injury.

Instructions for Installation and Usage

1. Preparation:

- Ensure that you have the appropriate caliber bullets and fireformed brass.
- Gather necessary tools, including calipers and bullet comparators for precise measurements.

2. Using the Tool:

- For bolt action and single shot rifles:
 - Insert the Delrin action guide into the chamber of the rifle.
 - Ensure that the tool is securely positioned.
 - Use the tool to measure the bullet seating depth by adjusting the bullet until it touches the rifling.
- For AR type rifles:
 - Remove the bolt from the upper receiver.
 - Insert the tool into the back of the upper receiver.
 - Proceed to measure as you would with a bolt action rifle.

3. Measuring BaseToOgive:

- For best results, use the Sinclair Bullet Comparators and calipers to take repeatable and precise measurements.

4. PostUse:

- After using the tool, clean it and store it in a safe, dry place.
- Regularly check the tool for any signs of wear or damage.

Disposal Instructions

- When the tool reaches the end of its life cycle, dispose of it responsibly.
- Follow local regulations for the disposal of metal products.
- Do not dispose of the tool in general waste; consider recycling options where available.

Contact Information for Further Support

For any questions or concerns regarding the Sinclair Bullet Seating Depth Tool, please reach out to the manufacturer's customer service department. They can provide assistance and guidance on product safety, usage, and maintenance.

By following these safety instructions, you can ensure a safe and effective experience with the Sinclair Bullet Seating Depth Tool. Always prioritize safety and consult professionals if you have any doubts or questions.
