

MEC POWDER BUSHINGS - MEC RELOADING #25 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at www.mecreloaders.com

MEC Powder Bushings Safety Instruction Guide

Introduction

Thank you for choosing the MEC Powder Bushings. This guide provides essential safety instructions to ensure the safe and effective use of your MEC Powder Bushing #25. Please read this guide carefully before use to understand how to handle and operate the product safely.

General Safety Guidelines

- Always handle the MEC Powder Bushing with care to avoid injury.
- Ensure that the workspace is clean and free from distractions while using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for any signs of wear or damage before each use.
- Use the bushing only for its intended purpose as described in this guide.
- In case of any malfunction or damage, discontinue use immediately and seek assistance.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Weight Accuracy:** Always use a reliable scale to check powder weights for accuracy when using the bushing.
- **Ventilation:** Ensure that your workspace is wellventilated to avoid inhaling any dust or particles from the powder.
- **Protective Gear:** Consider wearing safety glasses and a mask to protect against powder dust and debris.
- **Avoid Overloading:** Do not exceed the recommended powder load for the bushing to prevent accidents.
- **Proper Storage:** Store the bushing in a dry, cool place, away from direct sunlight to maintain its integrity.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is turned off and unplugged before installation.
- Remove the existing bushing from the press if applicable.
- Insert the MEC Powder Bushing #25 securely into the designated slot of the reloading press.
- Ensure that the bushing is locked in place according to the manufacturer's instructions.

2. Usage:

- Adjust the bushing to the desired powder load as per the provided charts or guidelines.
- Place a suitable container under the bushing to catch the powder.
- Slowly operate the reloading press to dispense the powder.
- After use, clean the bushing to prevent residue buildup.

Disposal Instructions

- Dispose of any unused or expired powders according to local regulations.
- Do not dispose of the MEC Powder Bushing in regular household waste.
- Check with local waste disposal authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the manufacturer's contact details available on the MEC website.

Thank you for ensuring your safety and the safety of others while using the MEC Powder Bushing #25. Your attention to these guidelines helps maintain a safe reloading environment.
