

MEC POWDER BUSHINGS - MEC RELOADING #32 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at www.mecreloaders.com

MEC Powder Bushings Safety Instruction Guide

Introduction

Thank you for choosing the MEC Powder Bushing #32. This product is designed to help you accurately measure and adjust the powder load for your reloading needs. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always ensure that the workspace is clean and free from distractions while reloading.
- Keep the powder bushings out of reach of children and pets to prevent accidental exposure.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling powder and reloading components.
- Regularly inspect your powder bushings for any signs of wear or damage before use.
- Follow all manufacturer instructions and recommendations for the specific powders you are using.

Specific Safety Precautions for Use

- **Hazard Identification:** The MEC Powder Bushing is designed for use with smokeless powder. Ensure that you are not using any other type of powder, as this can lead to dangerous situations.
- **Avoid Overloading:** Do not exceed the recommended powder load for your specific caliber. Overloading can result in dangerous malfunctions.
- **Use a Scale:** Always use a reliable scale to check powder weights for accuracy before loading ammunition.
- **Ventilation:** Ensure that your reloading area is wellventilated to avoid inhalation of powder dust or fumes.
- **Emergency Procedures:** In case of accidental spillage of powder, clean it up immediately and dispose of it according to local regulations.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is turned off and unplugged before installing the powder bushing.
- Select the appropriate MEC powder bushing for your desired powder load (in this case, #32).
- Securely attach the powder bushing to the reloading press according to the manufacturer's instructions.

2. Usage:

- Set the desired powder charge using the scale and the selected bushing.
- Carefully fill the powder bushing with the appropriate powder, ensuring not to overfill.
- Use the bushing to dispense the powder into the cartridge case, ensuring that the charge is consistent for each round.
- After use, clean the powder bushing to prevent residue buildup.

Disposal Instructions

- Dispose of any unused or expired powder in accordance with local hazardous waste disposal regulations.
- Do not dispose of powder bushings in regular household waste. Check with local authorities for proper disposal methods.
- Recycle packaging materials where possible, following local recycling guidelines.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the MEC website or contact your local MEC dealer. Ensure you have the product's model number and other relevant details available for assistance.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your MEC Powder Bushing #32. Thank you for prioritizing safety in your reloading practices.
