## SAFETY INSTRUCTION GUIDE

### Introduction

Thank you for choosing the Remington 700 Bolt Maintenance Tool Kit. This kit is designed to assist you in cleaning, maintaining, and changing parts on the bolt of your Remington 700 bolt action rifle. Please read this safety instruction guide carefully to ensure safe and effective use of the tools included in the kit.

### General Safety Guidelines

- Ensure you are familiar with the operation of your Remington 700 rifle and its components before using this maintenance kit.
- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using tools.
- Keep the workspace clean and organized to avoid accidents.
- Store all tools in a safe place, out of reach of children and vulnerable individuals.
- Regularly inspect tools for wear and damage; do not use damaged tools.
- If you experience any discomfort or unusual reactions while using the tools, stop immediately and seek medical advice if necessary.

### Specific Safety Precautions for Use

- Always ensure that the rifle is unloaded and the bolt is removed before performing maintenance.
- Use the Sinclair Remington Firing Pin Removal Tool only as directed to avoid damaging the firing pin assembly.
- Be cautious when using the Remington Ejector Compressor Tool; improper use may lead to injury or damage to the ejector.
- Handle the Remington Mainspring Tool with care to prevent accidental injury.
- When using the Remington Bolt Maintenance Bench Block, ensure it is placed on a stable surface to prevent slipping.

### Instructions for Installation and Usage
