## ULTIMATE MICROMETER TRIMMER & PLATFORM KIT

[Reloading](#) > [Case Preparation](#) > [Case Trimming](#) > [Case Trimmers](#)

SINCLAIR STAINLESS ULTIMATE TRIMMER - The legendary L.E. Wilson Case Trimmer has just gotten better. Exclusive to Sinclair International, the L.E. Wilson Case Trimmer is now offered in a Stainless Steel model. We've paired the most accurate trimmer in the world with our Sinclair Micrometer head to create the Sinclair Stainless Ultimate Trimmer. The L.E. Wilson Case Trimmer aligns and holds your cases square to the cutter during the trim process. This results in a virtually identical trim length for each case. It is accomplished with L.E. Wilson's unique case holder system which holds the case by the body taper. The trimmer case holder, cutter housing, and micrometer adjustment unit sit in perfect alignment. No pilots or collets are utilized which could influence the trim results negatively. Now in stainless steel, the L.E. Wilson Trimmer is built to last for a lifetime of use. Our Sinclair Micrometer head allows the reloader to easily adjust trim length in increments of .001" with an adjustment length of over 2". Our micrometer reads in "actual" case length, making it the most pleasurable micro trimmer to work with. Determine your trim length, dial to the exact length on the micrometer, and you're ready - it's that simple. The micrometer features crisp, easy-to-read engravings and may be locked in place when set. Easily accommodates cases from 22 Hornet to 416 Rigby. When trimming cases shorter than 1.3" such as pistol cases, the use of a spacer (part number WX11) is necessary. Completing the Sinclair Stainless Ultimate Trimmer is our Sinclair Mounting Stand with Shark Fin Clamp. This system makes easy work of installing and removing your trimmer case holder in a smooth "swing-arm" motion. The Shark Fin trimmer clamp secures the case head firmly against the micrometer adjustment head for a quick and accurate, chatter-free trim. \* Trimmer Case Holders and accessories sold separately. PLATFORM - The idea for this platform originated from a writer/customer of ours. The platform is a mounting board for the L.E. Wilson trimmer series that provides storage space for nine (9) case holders and a tapping block for knocking the cases out of the holder. The polyethylene platform has rubber feet, but most of us prefer it c-clamped to the bench.

SINCLAIR STAINLESS ULTIMATE TRIMMER - The legendary L.E. Wilson Case Trimmer has just gotten better. Exclusive to Sinclair International, the L.E. # Safety Instruction Guide for ULTIMATE TRIMMER & PLATFORM KIT SINCLAIR/L.E. WILSON

## Introduction

Thank you for choosing the ULTIMATE TRIMMER & PLATFORM KIT from Sinclair/L.E. Wilson. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this guide thoroughly before using the trimmer and platform kit.

## General Safety Guidelines

- **Product Safety:** Always use the trimmer and platform kit according to the manufacturer's instructions to minimize risks.
- **Enhanced Recalls:** Stay informed about any product recalls. Check the manufacturer's website or relevant safety platforms regularly.
- **Online Shopping:** If purchased online, ensure that the platform complies with safety regulations.
- **Consumer Focus:** Special care should be taken when children are present. Keep the product out of reach of children.
- **EU Contact Point:** For safety inquiries, please refer to the manufacturer's contact information provided with the product.
- **Rapid Alerts:** Be aware of any updates regarding product safety through the EU's Safety Gate system.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Sharp components: Handle the trimmer with care to avoid cuts.
  - Heavy parts: Use proper lifting techniques to avoid injury.
  - Small parts: Ensure that small components are kept away from children and pets.
- **Avoiding Hazards:**
  - Always wear safety glasses to protect your eyes from debris.
  - Use gloves when handling sharp parts to prevent cuts.
  - Ensure that your work area is clean and free from obstructions.
  - Do not exceed the recommended trim length to avoid damaging the trimmer or causing accidents.
- **AgeSpecific Warnings:**
  - This product is not intended for use by children. Keep it stored in a safe place.

## Instructions for Installation and Usage

- **Installation:**
  - Unpack the trimmer and platform kit carefully.
  - Attach the Sinclair Mounting Stand to a stable workbench using the provided clamps.
  - Ensure that the Shark Fin Clamp is securely fastened to hold the case head firmly against the micrometer adjustment head.
- **Usage:**
  - Set the desired trim length on the micrometer by turning the adjustment knob.

- Insert the case into the trimmer case holder, ensuring it is aligned properly.
- Engage the trimmer by pulling the handle down smoothly to initiate the trimming process.
- After trimming, carefully remove the case from the holder.
- For cases shorter than 1.3 inches, use the spacer (part number WX11) as necessary.

- **PostUse:**

- Always clean the trimmer after use to maintain its performance.
- Store the trimmer and platform kit in a dry place, away from children.

## **Disposal Instructions**

- **Product Disposal:**

- Dispose of the product according to local regulations.
- Do not dispose of the product in regular household waste. Check for recycling options for metal and plastic components.

- **Packaging Disposal:**

- Recycle packaging materials where possible.
- Dispose of any plastic wrapping in accordance with local waste management guidelines.

## **Contact Information for Further Support**

For any questions or concerns regarding the ULTIMATE TRIMMER & PLATFORM KIT, please refer to the contact information provided with the product.

Thank you for following these safety instructions. Enjoy your experience with the ULTIMATE TRIMMER & PLATFORM KIT from Sinclair/L.E. Wilson!
