

# BULLET MOULDS - RCBS 45-201-SWC BULLET MOULD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Rifle Moulds](#)

RCBS Bullet Moulds are meticulously machined from solid cast iron blocks to exacting tolerances and specifications. We go to great lengths to ensure all moulds are machined to deliver accurate, clean, and repeatable castings, drop after drop.

## Attributes

- Name: [RCBS 45-201-SWC BULLET MOULD](#)
- Manufacturer: [RCBS](#)
- Product no.: 749014360
- Mfr. No.: 82047
- Bullet Style: Semi-Wadcutter (SWC)
- Bullet Weight (Grains): 201
- Caliber: 45 Caliber
- Delivery weight: 0.408kg
- Shipping height: 48mm
- Shipping width: 58mm
- Shipping length: 91mm
- UPC: 076683820471

# Safety Instruction Guide for RCBS 45201SWC Bullet Mould

## Introduction

Thank you for choosing the RCBS 45201SWC Bullet Mould. This guide provides essential safety instructions to ensure the safe and effective use of your bullet mould. Please read this guide carefully before use to understand how to operate the product safely and responsibly.

## General Safety Guidelines

- Ensure safe use of the bullet mould by following these safety guidelines:
- Always use the bullet mould in a wellventilated area to avoid inhalation of any fumes.
- Wear appropriate personal protective equipment (PPE), including safety glasses and heatresistant gloves.
- Keep the bullet mould out of reach of children and vulnerable individuals.
- Regularly check the mould for any signs of wear or damage before each use.
- Do not use the bullet mould for any purpose other than its intended use.

## Specific Safety Precautions for Use

- Before use, ensure the mould is clean and free from debris.
- Preheat the mould according to the manufacturer's instructions to ensure optimal casting results.
- Avoid touching the mould surface during operation to prevent burns.
- Use caution when handling molten lead; it can cause severe burns and injuries.
- If an accident occurs, such as spills or burns, seek medical attention immediately.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary materials, including lead, a heat source, and safety equipment.
- Ensure your workspace is clean and organized.

### 2. Setup

- Place the bullet mould on a stable, heatresistant surface.
- Connect the heat source and preheat the mould as recommended.

### 3. Casting Bullets

- Once the mould is preheated, carefully pour molten lead into the mould cavities.
- Allow the lead to cool and solidify before opening the mould.
- Use a suitable tool to gently tap the mould if the bullets do not release easily.

### 4. PostUse Care

- After use, allow the mould to cool completely before cleaning.
- Clean the mould with a soft brush or cloth to remove any residue.
- Store the mould in a dry place to prevent rust and damage.

## Disposal Instructions

- Dispose of any lead waste or scrap in accordance with local regulations regarding hazardous materials.

- Never dispose of lead in regular household waste. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

- For any questions or concerns regarding the RCBS 45201SWC Bullet Mould, please refer to the manufacturer's website or customer support resources.

By following these safety instructions, you can ensure a safe and enjoyable experience while using the RCBS 45201SWC Bullet Mould. Thank you for your attention to these important guidelines.
